

# Community and Shoreline Resilience

## WHAT CAN I DO?

Take action to reduce risk to our families, homes, and property and to improve our community.

### Take action at home.

See below for ways to reduce risk to our families, homes and property in the face of flooding, sea level and groundwater rise.

- ✓ Prepare for emergencies.
- ✓ Know your flood zone.
- ✓ Consider investing in flood insurance.
- ✓ Consider elevating your home.
- ✓ Consider on-site stormwater detention (ie. rain gardens, rain barrels, or cisterns).
- ✓ Keep street gutters clear and litter free.

### Take action in our community.

See below for ways to get involved with efforts to improve our community and create a thriving and resilient future.

- ✓ Sign up for adaptation newsletters.
- ✓ Check out the adaptation project webpages.
- ✓ Take a survey.
- ✓ Attend an upcoming event.
- ✓ Attend a monthly coastal cleanup.
- ✓ Learn about/volunteer with community based organizations.
