

City of Alameda Climate Action & Resiliency Plan

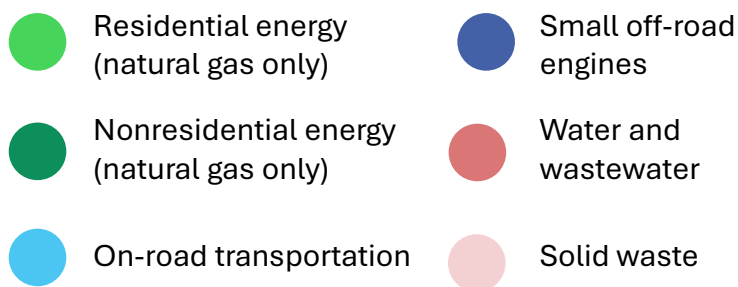

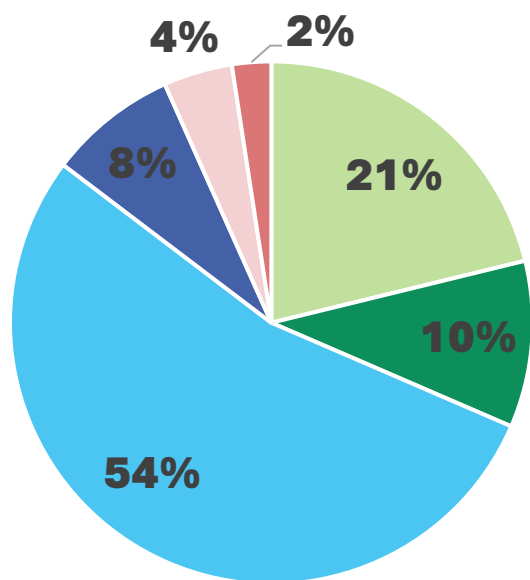

Vision

Alameda aims to be carbon neutral and to build community resilience in ways that enhance our quality of life and reduce environmental burden on vulnerable communities. The whole community is a vital part of this effort.

Greenhouse Gas Emissions for 2022

Through our last climate action plan, we **reduced emissions by 29%** from our 2005 baseline.

Goals

- Reduce emissions 50% below 2005 levels by 2030
- Become carbon neutral by 2045
- Build resilience to impacts of climate change and natural hazards

Action Areas

The plan is divided into 6 action areas to help us reach our goals.
