

STAY HOME, SAVE LIVES

Public Health Orders from the State and County require all people to stay home or at their place of residence except for essential needs. COVID-19 is a public health emergency.

WHAT TO DO

- People at high risk of severe illness from COVID-19 and people who are sick are urged to stay in their residence except as necessary to seek medical care.
- **Everyone else is required to stay home except to get food, care for a relative or friend, get necessary health care, or go to an essential job.**
- Alameda libraries and public buildings, including City Hall, are closed. All bars, wineries, and brewpubs are closed. Some restaurants are open for take-out and delivery only.
- While it is OK to go outside for walks or bike rides if you are not in a group, group games and gathering in groups are not allowed.
- Use social distancing of at least 6 feet when leaving your home for essential activities.

This stay at home order is necessary to save lives, protect the public health from the spread of COVID-19, and ensure our public healthcare system can serve those with critical needs.
