## INDEPENDENT AUDITOR'S REPORT

To the Honorable Members of the City Council  
City of Alameda, California

### Report on the Audit of the Financial Statements

#### *Opinion*

We have audited the accompanying financial statements of the Alameda County Transportation Commission Measure BB Program (Measure BB Program) of the City of Alameda (City), California, as of and for the year ended June 30, 2022, and the related notes to the financial statements, as listed in the Table of Contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Measure BB Program as of June 30, 2022, and the changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### *Basis for Opinion*

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with the relevant ethical requirement relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### *Emphasis of a Matter*

As discussed in Note 1, the financial statements present only the Measure BB Program and do not purport to, and do not present fairly the financial position of the City as of June 30, 2022, the changes in the financial position, or where applicable, its cash flows for the year then ended in accordance to accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

#### *Responsibilities of Management for the Financial Statements*

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error.

### ***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, individually or in the aggregate, they could reasonably be expected to influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control as it relates to the Measure BB Program. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### **Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated December 29, 2022 on our consideration of the City's internal control over financial reporting as it relates to the Measure BB Program and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance as it relates to the Measure BB Program.

**CITY OF ALAMEDA, CALIFORNIA**

**ALAMEDA COUNTY TRANSPORTATION COMMISSION  
MEASURE BB PROGRAM  
NOTES TO THE FINANCIAL STATEMENTS**

**For the Year Ended June 30, 2022**

**NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING PRINCIPLES**

**A. *Description of Reporting Entity***

Under Measure BB, approved by the voters of Alameda County in November 2014, the City of Alameda (City) receives a one-half percent sales tax to be used for local transportation-related expenditures. The duration of the tax will be 30 years from the initial year of collection, which began on April 1, 2015 and will expire on March 31, 2045. The voters also extended the Measure B one-half percent sales tax to 2045. This resulted in a total of one percent sales tax in Alameda County dedicated to transportation expenditures.

**B. *Basis of Presentation***

The Measure BB Program has been accounted for in a special revenue fund, which is a governmental fund type and is included in the City's basic financial statements as a nonmajor governmental fund. Special revenue funds are used to account for proceeds of specific revenues that are legally restricted to be expended for specified purposes.

The financial statements do not purport to, and do not, present the financial position or changes in financial position of the City. The projects represent a portion of the activities of the City and, as such, are included in the City's basic financial statements.

**C. *Basis of Accounting***

The accompanying financial statements are prepared on the modified accrual basis of accounting. Revenues are generally recorded when measurable and available, and expenditures are recorded when the related liabilities are incurred.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds are accounted for using a “current financial resources” measurement focus, wherein only current assets and current liabilities generally are included on the balance sheets. Operating statements of governmental funds presents increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets.

**CITY OF ALAMEDA, CALIFORNIA**

**ALAMEDA COUNTY TRANSPORTATION COMMISSION  
MEASURE BB PROGRAM  
NOTES TO THE FINANCIAL STATEMENTS**

**For the Year Ended June 30, 2022**

**NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING PRINCIPLES (Continued)**

**D. *Fund Balance***

Measure BB Program fund balance is restricted. A restricted fund balance represents amounts that can be spent only for specific purposes stipulated by external resource providers, constitutionally or through enabling legislation. Restrictions may effectively be changed or lifted only with the consent of resource providers.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the City considers restricted funds to have been spent first.

**E. *Use of Estimates***

Management uses estimates and assumptions in preparing the financial statements. Those estimates and assumptions affect the reported amounts of assets, deferred outflows of resources, liabilities and deferred inflows of resources, the disclosures of contingent assets and liabilities, and the reported revenues and expenditures. Actual results could differ from those estimates.

**NOTE 2 – CASH AND INVESTMENTS**

Cash and investments represent the Measure BB Program's share of the City's Treasury pool. All of the Measure BB Program's cash and investments are deposited in the City's Treasury pool as described in the City's Comprehensive Annual Financial Report, which can be obtained from the City's Department of Finance. The pool is unrated. Investments in the pool are made in accordance with the City's investment policy as approved by the City Council. Investments are stated at fair value. However, the value of the pool shares in the City's Treasury pool that may be withdrawn is determined on an amortized cost basis, which is different from the fair value of the Measure BB Program's position in the pool. Interest earned from time deposits and investments is allocated annually to the Program's based on the average monthly cash balance. The Measure BB Program's proportionate share of investments in the City's Treasury pool at June 30, 2022 of \$4,327,239, which is not subject to the fair value hierarchy.

**NOTE 3 – MEASURE BB DIRECT LOCAL DISTRIBUTION PROGRAM RECEIVABLES**

The Measure BB Direct Local Distribution Program Receivables represent the Measure BB sales tax revenues for the fiscal year received from the Alameda County Transportation Commission after June 30, 2022.

**CITY OF ALAMEDA, CALIFORNIA**

**ALAMEDA COUNTY TRANSPORTATION COMMISSION  
MEASURE BB PROGRAM  
NOTES TO THE FINANCIAL STATEMENTS**

**For the Year Ended June 30, 2022**

**NOTE 4 – MEASURE BB FUNDS**

Under Measure BB, approved by the voters of Alameda County in 2014, the City receives a portion of the proceeds of an additional one-half cent sales tax to be used for transportation-related expenditures. This measure was adopted with the intention that the funds generated by the additional sales tax will not fund expenditures previously paid for by property taxes but, rather, would be used for additional projects and programs.

Alameda County Transportation Commission (ACTC) distributes Measure BB funds to the City of Alameda for local street maintenance and safety; bicycle and pedestrian paths and safety; and for Paratransit for seniors and people with disabilities.

Local projects funded by Measure BB revenues received during fiscal year 2021-22 were as follows:

Paratransit – \$307,201 includes funding the costs of transportation services for paratransit and seniors.

Local Streets and Roads – \$3,100,202 pass-through allocation for the funding of the following Streets and Roads projects:

- Sidewalks
- Pavement Management
- Central Avenue Safety Improvements
- Otis Drive Traffic Calming and Safety
- Safe Routes to School
- Lincoln Marshal Safety Improvements

Bicycle and Pedestrian – \$336,569 includes funding for the Complete Streets and Bike and Pedestrian Program.

**INDEPENDENT AUDITOR'S REPORT ON  
INTERNAL CONTROL OVER FINANCIAL REPORTING  
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN  
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE  
WITH *GOVERNMENT AUDITING STANDARDS***

To the Honorable Members of the City Council  
City of Alameda, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the Alameda County Transportation Commission Measure BB Program of the City of Alameda (City), California, as of and for the year ended June 30, 2022, and the related notes to the financial statements, and have issued our report thereon dated December 29, 2022. Our report included an emphasis of a matter paragraph stating that the financial statements of the Measure BB Program do not purport to, and do not, present fairly the financial position of the City as of June 30, 2022.

***Report on Internal Control over Financial Reporting***

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) as it relates to the Measure BB Program as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control as it relates to the Measure BB Program. Accordingly, we do not express an opinion on the effectiveness of the City's internal control as it relates to the Measure BB Program.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Measure BB Program's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

***Report on Compliance and Other Matters***

As part of obtaining reasonable assurance about whether the financial statements of the Measure BB Program are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required under *Government Auditing Standards*.

***Purpose of this Report***

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control or on compliance as it relates to the Measure BB Program. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control and compliance as it relates to the Measure BB Program. Accordingly, this communication is not suitable for any other purpose.

## INDEPENDENT AUDITOR'S REPORT ON MEASURE BB COMPLIANCE

To the Honorable Members of the City Council  
City of Alameda, California

### **Report on Compliance for Measure BB Program**

#### ***Opinion on Compliance for Measure BB Program***

We have audited the City of Alameda's compliance with the requirements of laws, regulations, contracts, and grants specified in the *Master Programs Funding Agreement* between the City and the Alameda County Transportation Commission (Funding Agreement) that could have a direct and material effect on the Alameda County Transportation Commission Measure BB Program for the year ended June 30, 2022.

In our opinion, the City complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on Measure BB Program for the year ended June 30, 2022.

#### ***Basis for Opinion on the Measure BB Program***

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (Government Auditing Standards), and requirements specified in the Funding Agreement. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for the Measure BB Program. Our audit does not provide a legal determination of the City's compliance with the compliance requirements referred to above.

#### ***Responsibilities of Management for Compliance***

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the Measure BB Program.

### ***Auditor's Responsibilities for the Audit of Compliance***

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the City's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, Government Auditing Standards and requirements specified in the Funding Agreement will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the City's compliance with the requirements of the Measure BB Program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards* and the Funding Agreement, we

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the City's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- obtain an understanding of the City's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the requirements referred to above, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

### **Report on Internal Control Over Compliance**

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of the Measure BB Program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of the Measure BB Program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of the Measure BB Program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements, specified in the *Master Programs Funding Agreement* between the City and the Alameda County Transportation Commission. Accordingly, this report is not suitable for any other purpose.

A handwritten signature in cursive script that reads "Mary & Associates".
