

NOTICE INVITING SEALED BIDS

The City of Alameda invites sealed bids for a contract for construction of the “Project” entitled: **FY 2020-23 ON-CALL STRIPING AND SIGNAGE CONTRACT, PW 02-20-08**

The contract will be used on an as needed basis, and in general, involves work related to pavement markings and traffic signage – including, but no limited to, pavement striping, pavement marking, sign and pole work, traffic control, placement of temporary no parking signs, and other associated work. The contract may be extended for one year up to two times.

1. **BID SUBMITTAL, WITHDRAWAL, IRREVOCABILITY:** Bids must be submitted on the bid forms supplied by the City. Bids must be received at: City of Alameda; PUBLIC WORKS DEPARTMENT, CITY HALL WEST, 950 W. MALL SQUARE, ROOM 110, ALAMEDA, CA 94501, not later than **August 19, 2020 at 2:30PM.**

Bids received after the time set for bid opening will not be considered. Bidders are solely responsible for the cost of preparing their bids. No bidder may withdraw its bid for a period **60 days** after the date set for bid opening, except pursuant to Public Contract Code Section 5101 *et seq.*

Due to the nature of this on-call contract, complexity of bids, and lack of bid total amount, it is not practical to open the bids and read them aloud. City will review all submittals and award the contract within 90 days of the Bid Due Date.

2. **COST ESTIMATE:** The contract amount for FY 2020-23 is \$150,000 per year. If agreed, the City and Contractor may choose to extend the contract for one year, up to two times. The contract amount of each one year extension will be \$150,000. The usages of the services are on an as-needed basis, so if the demand is not there, then the services will not be requested. There is no guarantee for work.

Unless approved in writing by the Contractor, the minimum amount of on-call work for each set of requested work shall not be less than \$10,000. In the event that the requested work is less than \$10,000, the contractor will be paid the cost of the work, plus fifteen percent (15%).

3. **CONTRACT TIME; LIQUIDATED DAMAGES:** Each set of work is to be completed within a total maximum of **25 working days** after it is submitted to the Contractor. The City will assess liquidated damages in the amount of **\$500.00** for each and every calendar day of delay in finishing the work in excess of the contract time.
4. **REQUIRED CONTRACTOR’S LICENSE(S):** Pursuant to Business & Professions Code Section 7028.15 and Public Contract Code Section 3300 all bidders must possess proper licenses for the performance of the work contemplated by the Project. Contractor must possess a valid California **Class A** and the Contractor or subcontractor must possess a valid **C31** contractor’s license to prepare the pedestrian and traffic control plan.

5. **REGISTRATION WITH THE DEPARTMENT OF INDUSTRIAL RELATIONS:** The Bidder and its Subcontractors must be registered and qualified to perform public work pursuant to Labor Code Section 1725.5, subject to limited legal exceptions under Labor Code Section 1771.1.
6. **PRE-BID CONFERENCE:** None.
7. **CONTRACT DOCUMENTS:** Electronic specifications and bidder's forms for bidding this project can only be obtained at the City of Alameda website, <https://www.alamedaca.gov/BUSINESS/Bid-on-City-Contracts>, or by calling (510) 747-7900. There is no cost for the specifications. **It is the responsibility of each prospective bidder to check the website periodically for updates, such as Addenda.**
8. **PLAN HOLDERS LIST:** The City will not be tracking who downloads the documents. Therefore, there will be no plan holders list.
9. **SECURITIES SUBSTITUTION:** Pursuant to California Public Contract Code Section 22300, and at the request and expense of the Contractor to whom the Contract is awarded, securities in a form approved by the City shall be permitted in substitution for money withheld by the City to ensure performance under the Contract.
10. **PREVAILING WAGE:** Pursuant to California Labor Code Section 1770, *et seq.*, the Project is a public work and the successful bidder will be required to comply with certain labor standards and employment requirements including payment of the prevailing wage rates in effect on the date this Notice Inviting Sealed Bids was first published. Copies of the prevailing wage rates can be viewed at: <http://www.dir.ca.gov/DLSR/PWD/> and are on file with the City Project Manager at the address identified below, and shall be made available to any interested party upon request.
11. **DEPARTMENT OF INDUSTRIAL RELATIONS MONITORING/ENFORCEMENT:** This Contract will be subject to compliance monitoring and enforcement by the California Department of Industrial Relations.
12. **WAIVER OF IRREGULARITIES:** The City reserves the right, in its sole discretion, to reject any or all Bids, to waive minor irregularities or defects in bidding and to reject nonconforming, nonresponsive or conditional bids.
13. **INQUIRIES:** If any Bidder has questions regarding this Project, contact the Project Manager: Alan Ta, Assistant Engineer, ata@alamedaca.gov. Bidder shall submit any questions addressing the interpretation or clarification of the Contract Documents in writing.

GENERAL REQUIREMENTS

SECTION I. PROPOSAL AND CONTRACT REQUIREMENTS

A. GENERAL INFORMATION. The City of Alameda will receive sealed bid at the time and place specified in the advertisement calling for bids for:

FY 2020-23 ON-CALL STRIPING AND SIGNAGE CONTRACT CONTRACT NO. P.W. 02-20-08

The contract will be used on an as needed basis, and in general, involves work related to pavement markings and traffic signage. This includes the following items of work: pavement striping, pavement marking, sign and pole work, pedestrian and traffic control, placement of temporary no parking signs, and other associated work.

The contract amount for FY 2020-23 is \$150,000 per year. If agreed, the City and Contractor may choose to extend the contract for one year, up to two times. The contract amount of each one year extension will be \$150,000. The usages of the services are on an as-needed basis, so if the demand is not there, then the services will not be requested. There is no guarantee for work.

Electronic specifications and bidder's forms for bidding this project can only be obtained at the City of Alameda website, <https://www.alamedaca.gov/BUSINESS/Bid-on-City-Contracts>, or by calling (510) 747-7900. There is no cost for the specifications. **It is the responsibility of each prospective bidder to check the website periodically for updates, such as Addenda.**

Please direct all your questions to Alan Ta at ata@alamedaca.gov.

The Project Manual (and any Addenda) is also available online at <https://www.alamedaca.gov/BUSINESS/Bid-on-City-Contracts>.

B. EXAMINATION OF PLANS, SPECIFICATIONS, SPECIAL PROVISIONS AND SITE OF WORK. The bidder is required to examine carefully the site and the proposal, plans, specifications and contract forms for the work contemplated, and it will be assumed that the bidder has investigated and is satisfied as to the conditions to be encountered, as to the character, quality and quantities of work to be performed and materials to be furnished, and as to the requirements of the specifications, the special provisions and the contract.

C. DESIGNATIONS. As used herein "City" shall mean the City of Alameda; "Council" or "City Council" shall mean the Council of the City; "City Manager" shall mean the City Manager of the City; "Engineer" or "City Engineer" shall mean the City Engineer or City Engineer's designee of the City; "Director" shall mean the Public Works Director of the City; and "Contractor" shall mean the bidder who is awarded the contract for the work.

D. PROPOSAL FORM. All bids must be made upon blank forms which are included in these specifications (Exhibit A). **All bids must include all items in Exhibit A. All bidders must have completed at least three projects of similar nature and dollar value equivalent to or exceeding this project. Furnish details of those projects on the Reference Form included in Exhibit A.**

All bids must give the prices proposed. Bids must be signed by the Bidder. If the proposal is signed by an individual, that individual's name and business address must be shown. If made by a firm or partnership, the name and the post office address of each member of the firm or partnership must be shown. If made by a corporation, the proposal must show the name of the state under the laws of which the corporation was chartered and the names, titles, and business addresses of the president, secretary and treasurer.

E. PRESENTING AND MARKING OF BIDS. Bids must be presented to the Public Works Department, 950 W. Mall Square, Room 110, Alameda, California, under sealed cover, plainly marked on the outside,

(NAME OF BIDDER)

Bid for FY 2020-23 ON-CALL STRIPING AND SIGNAGE CONTRACT

Bids must be received by the Public Works Department by **2:30 p.m.** on the date set forth in the following paragraph.

Bids must be submitted on the bid forms supplied by the City. Bids must be received, no later than August 19, 2020 at 2:30PM. **Due to the nature of this on-call contract, complexity of bids, and lack of bid total amount, it is not practical to open the bids and read them aloud. City will review all submittals and award the contract within 90 days of the Bid Due Date.**

F. BIDDER'S GUARANTY. All bids shall be accompanied by one of the following forms of bidder's guaranty: cash, a cashier's check, a certified check, or a bidder's bond executed by an admitted surety insurer, made payable to the City of Alameda. The security shall be in an amount equal to at least ten percent (10%) of the amount bid. A bid shall not be considered unless one of the forms of bidder's security is enclosed with it. If, in lieu of depositing cash, a cashier's check, or a certified check, the bidder submits a bidder's bond, the said bond shall, in form, be satisfactory to the City Attorney of the City of Alameda. A Bid Bond form is provided in Exhibit A.

Said bidder's guaranty which is submitted according to the above paragraph shall, in the event of the failure, for any reason, of the successful bidder or bidders to execute the contract as awarded, be deemed to be liquidated damages to be retained in full by the City of Alameda, but shall not be construed as a penalty for failure to execute said contract. The full amount of the said bidder's guaranty shall also be retained in full by the City of Alameda as consideration payable to the City of Alameda for engineering, accounting and clerical services in formulating specifications for such bid or bids, for advertising costs to the City of Alameda in connection with such bid or bids, and further, as consideration for the award of such contract to such bidder or bidders.

Any bid bond submitted under this Section shall incorporate therein by reference, or otherwise, all of the provisions of Section I, Item F, of these specifications.

G. RETURN OF BIDDER'S GUARANTIES. Within ten (10) days after the award of the contract, the Public Works staff will return the proposal guaranties accompanying the bids which are not to be considered in making the award. All other proposal guaranties will be held until the contract has been finally executed, after which they will be returned to the respective bidders whose bids they accompanied.

H. TAXES. Bids must include all state and federal taxes applicable to the transaction.

I. SUBCONTRACTORS. All contractors shall comply with the State Subletting and Subcontracting Fair Practices Act, located in Sections 4100 through 4112 of the California Public Contract Code. A copy of said Act is available in the office of the City Engineer. Said Act is hereby made a part of the specifications on the above-mentioned job and all contractors submitting bids shall accompany the bid with information regarding subcontractors as therein provided. All Subcontractors shall have a current City of Alameda business license.

J. REJECTION OR RETURN OF BIDS. Bids may be rejected if they show any alterations of form, additions not called for, conditional or alternative bids, incomplete bids, erasures or irregularities of any kind. The right is reserved to reject any and all bids. The City reserves the right to return bids unopened.

K. BID PROTEST. Any bid protest must be submitted in writing to the Public Works Director, City of Alameda Public Works Department, City Hall West, 950 West Mall Square, Room 110, Alameda, CA 94501 before 5:00 p.m. of the 10th business day following bid opening.

1. The initial protest document shall contain a complete statement of the basis for the protest.
2. The protest shall refer to the specific portion of the document which forms the basis for the protest.
3. The protest shall include the name, address, and telephone number of the person representing the protesting party.
4. The party filing the protest shall concurrently transmit a copy of the initial protest document and any attached documentation to all other parties with a direct financial interest which may be adversely affected by the outcome of the protest. Such parties shall include all other Bidders or proposers who appear to have a reasonable prospect of receiving an award depending upon the outcome of the protest.
5. The Public Works Director will issue a decision on the protest. If the Public Works Director determines that a protest is frivolous, the party originating the protest may be determined to be irresponsible and that party may be determined to be ineligible for future contract awards.
6. The procedure and time limits set forth in this paragraph are mandatory and are the Bidder's sole and exclusive remedy in the event of Bid protest and failure to comply with these procedures shall constitute a waiver of any right to further pursue the bid protest, including filing a Government Code Claim or legal proceedings.

L. AWARD OF CONTRACT. The award of contract, if it be awarded, will be to the responsible bidder who submits the lowest and best bid and whose proposal complies with all requirements described herein. The award, if made, will be made within ninety (90) days after the opening of the bids. All bids will be compared on the basis of the Engineer's estimate of quantities of work to be done. In the event of a delay, the City reserves the right to hold the Bidder to its bid for 90 days from the date the contract is awarded.

Bid protests, contracts, bonds, insurance, and other documents identified in these specifications and these special provisions are to be delivered to the following City address: City of Alameda, City Hall West, Public Works Department, 950 West Mall Square, Room 110, Alameda, CA 94501.

M. EXECUTION OF CONTRACT. The contract, in form and content satisfactory to the City, will be awarded at a regular City Council meeting (first and third Tuesdays of each month, except August). At least five (5) business days prior to the anticipated award date, the Contractor will be notified of apparent award status and requested to provide the documents necessary to complete the contract process. Required documentation shall include two (2) copies of the contract executed by the Contractor, proof of insurance and Payment and Performance bonds. The Contractor will be given five (5) business days from the date the City Council awards the contract to obtain the relevant bonds and insurance along with any other documents required for submission.

No proposal shall be considered binding upon the City until the execution of the contract. Failure to execute a contract and file acceptable bonds and insurance as provided herein within the time frame outlined above shall be just cause for the annulment of the award and the forfeiture of the bidder's guaranty.

N. CONTRACT BONDS. The Contractor shall furnish two good and sufficient bonds. One of the bonds shall be executed in a sum equal to at least one hundred percent (100%) of the contract price, which shall be furnished as required by the Terms of Section 3247 to 3252 of the Civil Code of the State of California (see Exhibit B). The other bond shall guaranty faithful performance of the said contract by the Contractor and shall be executed in a sum equal to at least one hundred percent (100%) of the contract price (see Exhibit B). Bonds shall be furnished by a surety company satisfactory to the City of Alameda.

Whenever any surety or sureties on any such bonds, or any bonds required by law for the protection of the claims of laborers and materials, become insufficient or the City Engineer has cause to believe that such surety or sureties have become insufficient, a demand in writing may be made of the Contractor for further bond or bonds or additional surety not exceeding that originally required, as is considered necessary, taking into account the extent of the work remaining to be done. Thereafter no payment shall be made upon such contract to the Contractor, or any assignee of the Contractor, until such further bond or bonds or additional surety has been furnished. Faithful performance bonds, whether by individual or corporate surety, shall in addition to other terms and conditions, contain the conditions that (1) death of the named principal shall not operate as a release of the obligation hereunder of the surety, and (2) extensions of time, if any, granted by the City to Contractor for performance of the work covered by said bond shall extend for a like time the period of limitations during which surety shall remain bound by the said undertaking.

SECTION II. LEGAL RELATIONS AND RESPONSIBILITIES

A. **LAWS TO BE OBSERVED.** The Contractor shall keep himself fully informed of all existing and future state and federal laws and all municipal ordinances and regulations of the City of Alameda which in any manner affect those engaged or employed in the work, or the materials used in the work, or which in any way affect the conduct of the work, and of all such orders and decrees of bodies or tribunals having any jurisdiction or authority over the same.

B. **RESERVED**

C. **DEPARTMENT OF INDUSTRIAL RELATIONS COMPLIANCE AND PREVAILING WAGE REQUIREMENTS ON PUBLIC WORKS PROJECTS.**

1. Effective January 1, 2015, no Contractor or Subcontractor may be listed on a bid proposal for a public works project (submitted after March 1, 2015) unless registered with the Department of Industrial Relations pursuant to Labor Code Section 1725.5 (with the limited exceptions from this requirement for bid purposed only under Labor code Section 1771.1(a)). Register at <https://efiling.dir.ca.gov/PWCR>

2. No Contractor or Subcontractor may be awarded a contract for public work on a public works project (awarded on or after April 1, 2015) unless registered with the Department of Industrial Relations pursuant to Labor Code Section 1725.5.

3. This project is subject to compliance monitoring and enforcement by the Department of Industrial Relations.

4. The Prime Contractor is required to post job site notices prescribed by regulations. See 8 Calif. Code Regulation §16451(d).

5. Effective April 1, 2015, All Contractors and Subcontractors must furnish electronic certified payroll records directly to the Labor Commissioner at: <https://apps.dir.ca.gov/ecpr/das/altlogin>

D. **PREVAILING WAGES:**

1. The Contractor is aware of the requirements of California Labor Code sections 1720 et seq. and 1770 et seq., as well as California Code of Regulations, Title 8, section 16000 et seq. ("Prevailing Wage Laws"), which require the payment of prevailing wage rates and the performance of other requirements on certain "public works" projects. Since this Project involves a "public work" project, as defined by the Prevailing Wage Laws, Contractor shall fully comply with such Prevailing Wage Laws. Contractor's failure to comply with the Prevailing Wage Law may constitute a default under the contract for performance of the work which would entitle the City to rescind the contract or exercise other remedies as provided by law or the contract.

2. The Contractor shall obtain a copy of the prevailing rates of per diem wages at the commencement of this contract from the website of the Division of Labor Statistics and Research of the Department of Industrial Relations located at <http://www.dir.ca.gov/dlsr/>. In the alternative,

the Contractor may view a copy of the prevailing rates of per diem wages at the City's Public Works Department, Building 1, 950 W. Mall Square, Room 110, Alameda. The Contractor shall make copies of the prevailing rates of per diem wages for each craft, classification or type of worker needed to perform work on the Project available to interested parties upon request, and shall post copies at the Contractor's principal place of business and at the Project site. The Contractor shall defend, indemnify, and hold the City, its elected officials, officers, employees, volunteers, and agents free and harmless from any claims, liabilities, costs, penalties or interest arising out of any failure or allege failure to comply with the Prevailing Wage Laws and/or the City's Labor Compliance Program (hereinafter referred to as "LCP"), if any.

3. If this project is funded in whole or in part with Federal monies and subject to the provisions of the Davis-Bacon Act, the successful bidder shall pay not less than the wage rates determined by the Secretary of Labor. The Federal wage rates shall apply unless the State wage rates are higher. The Federal Wage Rates applicable to the contract are those current within ten (10) days of the bid due date.

4. The Contractor and all subcontractors shall pay and shall cause to be paid each worker engaged in work on the Project not less than the general prevailing rate of *per diem* wages determined by the Director, regardless of any contractual relationship which may be alleged to exist between the Contractor or any Subcontractor and such workers.

5. The Contractor and all subcontractors shall pay and shall cause to be paid to each worker needed to execute the work on the Project travel and subsistence payments, as such travel and subsistence payments are defined in the applicable collective bargaining Contracts filed with the Department of Industrial Relations in accordance with Labor Code § 1773.8.

6. If during the period any bid for work on this Project remains open, the Director of Industrial Relations determines that there has been a change in any prevailing rate of *per diem* wages in the locality in which this public work is to be performed, such change shall not alter the wage rates in the Notice calling for Bids or the contract subsequently awarded.

7. Pursuant to Labor Code §1775, the Contractor shall as a penalty to the City, forfeit Fifty Dollars (\$50.00) for each calendar day, or portion thereof, for each worker paid less than the prevailing rate of *per diem* wages, determined by the Director, for such craft or classification in which such worker is employed for any public work done under the Contract by the Contractor or by any Subcontractor under it. The amount of the penalty shall be determined by the Labor Commission. In addition, the difference between such prevailing rate of *per diem* wage and the amount paid to each worker for each calendar day or portion thereof for which each worker was paid less than the prevailing rate of *per diem* wage shall be paid to each work by the Contractor.

8. Any worker employed to perform work on the Project, which work is not covered by any craft or classification listed in the general prevailing rate of *per diem* wages determined by the Director, shall be paid not less than the minimum rate of wages specified therein for the craft or classification which most nearly corresponds to the work on the Project to be performed by them, and such minimum wage rate shall be retroactive to time of initial employment of such person in such craft or classification.

9. For those crafts or job classifications requiring special prevailing wage determinations, please contact the Division of Labor Statistics and Research, Prevailing Wage Unit, P.O. Box 420603, San Francisco, CA 94142-0603, (415) 703-4774 or check out the web site at <http://www.dir.ca.gov>.

E. HOURS OF LABOR.

1. As provided in Article 3 (commencing at §1810), Chapter 1, Part 7, Division 2 of the Labor Code, eight (8) hours of labor shall constitute a legal day's work. The time of service of any worker employed at any time by the Contractor or by any Subcontractor on any subcontract under this Contract, upon the work or upon any part of the work contemplated by this Contract, is limited and restricted to eight (8) hours during any one calendar day and forty (40) hours during any one calendar week, except as hereinafter provided. Notwithstanding the provision hereinabove set forth, work performed by employees of Contractor in excess of eight (8) hours per day and forty (40) hours during any one week shall be permitted upon this public work provided that the employees' compensation for all hours worked in excess of eight (8) hours per day at not less than one and one-half (1-1/2) times the basic rate of pay.

2. The Contractor shall pay to the City a penalty of Twenty-five Dollars (\$25.00) for each worker employed in the execution of this Contract by the Contractor, or by any Subcontractor, for each calendar day during which such worker is required or permitted to work more than eight (8) hours in any calendar day and forty (40) hours in any one (1) calendar week, in violation of the provisions of Article 3 (commencing at §1810), Chapter 1, Part 7, Division 2 of the Labor Code, unless compensation for the workers so employed by Contractor is not less than one and one-half (1-1/2) times the basic rate of pay for all hours worked in excess of eight (8) hours per day.

3. Holiday and overtime work, when permitted by law, shall be paid for at a rate of at least one and one-half (1½) times the above specified rate of *per diem* wages, unless otherwise specified. Holidays shall be defined in the Collective Bargaining Contract applicable to each particular craft, classification, or type of worker employed.

F. CERTIFIED PAYROLL.

1. Contractor's attention is directed to California Labor Code Section 1776, which requires Contractor and any subcontractors to keep an accurate payroll record and which imposes inspection requirements and penalties for non-compliance. Contractor is responsible for the submission of copies of payrolls by all subcontractors. Each payroll submitted shall be accompanied by a "Statement of Compliance", signed by the Contractor or subcontractor or his/her agent who pays or supervises the payment of the persons employed under the contract, and shall certify the following:

- a. That the payroll for each payroll period contains the name, social security number, and address of each employee, his or her correct classification, including applicable area and group code, hourly rates of wages paid, daily and weekly number of hours worked, deductions made and actual wages paid, and that such information is correct and complete;
- b. That such laborer or mechanic (including each helper, apprentice and trainee) employed on the contract during the payroll period has been paid the full weekly wages earned, without rebate, either directly or indirectly, and that no deductions have been made either directly or indirectly from the full wages earned, other than permissible deductions; and
- c. That each laborer or mechanic has been paid not less than the applicable wage rates and fringe benefits or cash equivalents for the classification of work performed, as specified in the applicable wage determination incorporated into the contract.

2. If the Contractor or a subcontractor does not work during the payroll period, a Statement of Non-Working Days must be submitted for each day not worked.

3. In the event of noncompliance with the requirements of such section after 10 Days written notice specifying in what respects compliance is required, the CONTRACTOR shall forfeit as a penalty to the CITY, \$25.00 for each calendar Day, or portion thereof, for each worker, until strict compliance is effectuated. Upon the request of the Division of Apprenticeship Standards or the Division of Labor Standards Enforcement, such penalties shall be withheld from progress payments then due.

G. APPRENTICES.

1. Attention is directed to the provisions in sections 1777.5 and 1777.6 of the Labor Code concerning the employment of apprentices by the Contractor or any subcontractor under him on contracts greater than \$30,000 or 20 working days. The Contractor and any subcontractor under him shall comply with the requirements of Sections 1777.5 and 1777.6 in the employment of apprentices.

2. Section 1777.5 requires the Contractor or subcontractor employing workers in any apprenticeable occupation to apply to the joint apprenticeship committee nearest the site of the public works project, and which administers the apprenticeship program in that trade, for a certificate of approval, if they have not previously applied and are covered by the local apprenticeship standards.

3. The Contractor is required to make contributions to funds established for the administration of apprenticeship programs if: (1) the Contractor employs registered apprentices or journeymen in any apprenticeable trade on such contracts and if other contractors on the public works site are making such contributions; or (2) if the Contractor is not a signatory to an apprenticeship fund and if the funds administrator is unable to accept Contractor's required contribution. The Contractor or subcontractor shall pay a like amount to the California Apprenticeship Council.

4. Information relative to apprenticeship standards, wage schedules, and other requirements may be obtained from the Director of Industrial Relations, ex-officio the Administrator of Apprenticeship, San Francisco, California, or from the Division of Apprenticeship Standards and its branch offices.

H. LABOR DISCRIMINATION. No discrimination shall be made in the employment of persons upon public works because of the race, color, sex, religion, age, national origin, sexual orientation, or physical disability of such persons and every Contractor for public works violating this section is subject to all the penalties imposed for a violation of the provisions of the Labor Code, and, in particular, Section 1735.

I. REGISTRATION OF CONTRACTORS. Before submitting bids, contractors shall be licensed in accordance with the provisions of Chapter 9, Division 3, of the Business and Professional Code of the State of California. All Contractors must have an "A" license or a "C" license that allows them to complete the work specified herein, in a professional manner consistent with these specifications.

J. PERMITS AND LICENSES. The Contractor shall procure all permits and licenses, including City of Alameda business licenses, pay all charges and fees, and give all notices necessary and incidental to the due and lawful prosecution of the work. However, the contractor will be reimbursed for construction permit fees. The estimated cost shown as an allowance in the

bid proposal is only for bidding purposes. Payment shall be made for the actual cost of the permit. The cost for a City of Alameda business license is not reimbursable. Each Subcontractor shall have a current City of Alameda business license.

The following permit(s) and/or license(s) are required for this project:

1. **A City of Alameda Business License**

A City of Alameda business license can be obtained at the following address

City of Alameda
Finance Department,
2263 Santa Clara Avenue, Room 220
Alameda, CA 94501

<https://www.alamedaca.gov/BUSINESS/Business-Licensing-Permits>

K. PATENTS. The Contractor shall assume all costs arising from the use of patented materials, equipment, devices or processes used on or incorporated in the work, and agrees to indemnify and hold harmless the City of Alameda, its officers, employees and agents from all suits at law or actions of any nature, damages, royalties and costs on account of the use of any patented materials, equipment, devices or processes.

L. RESPONSIBILITY FOR DAMAGES. The City of Alameda, its officers, employees and agents shall not be answerable or accountable in any manner for any loss or damage to the work or any part thereof, nor to any material or equipment used in performing the work, nor for injury or damage to any person or persons, either workers or the public, nor for damage to adjoining property from any cause whatsoever during the progress of the work nor at any time before final acceptance.

M. CONTRACTOR'S RESPONSIBILITY FOR THE WORK. Except as provided above, until formal acceptance of the work by the City, the Contractor shall have the charge and care thereof and shall bear the risk of injury or damage to any part thereof by the action of the elements or from any other cause, whether arising from the execution or from the non-execution of the work. The Contractor shall rebuild, repair, restore and make good all injuries or damages to any portion of the work occasioned by any of the above causes before final acceptance and shall bear the expense thereof, except such injuries or damages occasioned by acts of the Federal Government or the public enemy. The Contractor will not be responsible for the cost of repairing or restoring damage to the work, which damage is determined to have been proximately caused by an act of God, in excess of 5% of the contracted amount.

N. SAFETY PROVISIONS. The Contractor shall conform to the rules and regulations pertaining to safety established by the California Division of Occupational Safety and Health of the Industrial Relations Department (CAL-OSHA).

The Contractor shall conform to current and future health officer orders issued by the Alameda County Public Health Department, including but not limited to Health Officer Order 20-10, Appendix B-2, Large Construction Project Safety Protocol.

O. NO PERSONAL LIABILITY. Neither the City Council, City Manager, the City Engineer, nor any other City officer, authorized assistant or agent shall be personally responsible for any liability arising under this contract.

P. RESPONSIBILITY OF CITY. The City of Alameda shall not be held responsible for the care or protection of any material or parts of the work prior to final acceptance, except as expressly provided in these specifications.

Q. PUBLIC CONVENIENCE AND SAFETY. The Contractor shall so conduct operations as to cause the least possible obstruction and inconvenience to public traffic. The Contractor shall furnish, erect and maintain such fences, barriers, lights and signs as are necessary or as required by the Engineer to give adequate warning to the public at all times that the work is in progress and of any dangerous conditions to be encountered as a result of the work or of the presence of the Contractor's equipment or machinery.

The use of Flex-o-Lite Model No. 501, or approved equal, will be permitted only in specifically approved locations and only to the extent of 50 percent of the total amount of necessary lighting. Other models of lesser candle power may be permitted in some approved locations at a lesser percentage.

If the work involves the construction of a street or highway, the following additional provisions shall apply:

All traffic shall be permitted to pass through the work, unless other existing streets are stipulated as detours in the special provisions. Residents and businesses along the affected street or highway shall be provided passage as far as practicable; convenient access to driveways, houses and public buildings along the street or highway shall be maintained and temporary crossings shall be provided and maintained in good condition. No more than one cross or intersecting street or highway shall be closed at any time without the approval of the Engineer.

Contractor shall submit to the Engineer a typical Pedestrian and Traffic Control Plan for mobile operations within a roadway. This shall be included with the initial Project Submittal Package. The Contractor must have an approved plan prior to commencing of work. All Pedestrian and Traffic Control Plans must be in conformance with Caltrans regulations and guidelines.

The Contractor shall furnish, install and maintain such facilities as barricades, traffic signs, and flagmen, as may be necessary to advise the public of construction hazards and to control traffic.

The Contractor shall have an approved Pedestrian and Traffic Control Plan prior to commencing of work in the field. Contractor shall submit subsequent additions to the Pedestrian and Traffic Control Plan in a timely manner to allow for the Engineer's review and shall be in conformance with Caltrans regulations and guidelines.

At least 72 hours prior to beginning work on a section of street, curb or sidewalk that will affect use of the parking lane, the Contractor shall notify, by approved "No Parking - Tow Away" signs on barricades, all affected property owners, residents, businesses and agencies adjacent to that section of street. The "No-Parking" signs shall state the days, dates, and hours of parking lane closure, and shall be placed along the street on each side at no more than 30 feet spacing. The Contractor shall notify the Engineer at least one (1) working day in advance of the intent to post No-Parking signs, so that the timely posting can be verified by the Inspector. The Contractor is permitted to list up to one (1) working day before and one (1) working day after the scheduled days of work, as shown in the latest approved schedule on signs, in order to bracket the approved scheduled date of work. The Contractor shall remove the "No Parking" signs as soon as the parking lane is re-opened to parking.

If the Contractor is unable to meet the scheduled and noticed time for the work, the Contractor shall immediately notify the Engineer and remove the posted "No-Parking" signs. The Contractor shall submit a new scheduling request in writing to the Engineer. Upon written approval of the Engineer, the Contractor shall post signs at least 72 hours prior to beginning work per the revised schedule.

R. NOTICES TO CONTRACTOR. Any notice required to be given to the Contractor by the City of Alameda or by the City Engineer or by any officer of said City may be given to said Contractor at the address shown in the Contractor's proposal. Such notice may be given by mailing a copy of said notice to the Contractor to such address by United States certified mail. Evidence of such mailing shall be deemed the equivalent of personal services of said notice.

S. UTILITIES. The location of railroad tracks, utility facilities and other structures shall be the responsibility of the Contractor. The Contractor shall contact the owners of those tracks, facilities and structures for any information that may be required. The Contractor shall contact USA NORTH 811 forty-eight (48) hours prior to commencement of work; and provide the city with the USA ticket number.

Where existing sewers and storm drains cross or interfere in any way with construction under this contract, they shall be left in place and the Contractor shall work around them, or where feasible and practical, the Contractor may, with the permission of the City Engineer, remove and replace them at his/her own expense. Precautions shall be exercised to provide bearing under existing sewer lines so encountered to preclude settlement during or after the term of the contract. In the event that some of these sewers are abandoned, they may, with the permission of the City Engineer, be removed and not replaced. The Contractor shall provide submittals for the Engineer's review and approval for supporting utilities.

The owners of pipes, wires, conduits, vaults and other utilities (other than sewers) located in the City streets which could conflict with the proposed work will be notified by the City Engineer to remove or adjust the same, without cost to the Contractor, to such extent as will allow the prosecution of the work described herein according to the necessities thereof and in accordance with these specifications. Wherever and whenever the Contractor anticipates working in an area from which utilities must be removed at the expense of others, he/she shall notify the City Engineer sufficiently in advance (a minimum of ten (10) working days) to permit the owners thereof to rearrange or abandon such utilities, and he/she shall cooperate with the owners thereof in the performance of the work under this contract.

The work will be so prosecuted that a minimum of damage will result to utility services. In the event that utility services are damaged or interrupted, the Contractor shall immediately, at his/her own expense, restore such services in a manner satisfactory to the City Engineer. In the event that an interruption of utility services is sustained for a period of longer than one-half hour, it shall be the responsibility of the Contractor to notify the occupants of the premises to which said services are connected, so that no damage will accrue on or to said premises.

The Contractor shall perform all work in such manner as to prevent damage to utilities lying outside of or below a required excavation of trench area.

T. SOUND CONTROL REQUIREMENTS. Sound control shall conform to Section 4-10 of the Alameda Municipal Code, which prohibits weekday construction activities between 7:00 pm and 7:00 am.

U. CONSTRUCTION SITE CONTROLS. Within five (5) business days of the date the work is to commence pursuant to the NTP the Contractor shall submit an Erosion/Stormwater Pollution Prevention Plan (SWPPP) to the City Engineer for review. The SWPPP shall include appropriate erosion and sediment control measures to effectively prevent the entry of soil, dirt, debris and other pollutants to storm water runoff, the storm drain system, lagoons and the bay/estuary during construction. No work in the field under this Contract may begin until the City Engineer has approved the Contractor's SWPPP.

Erosion and sediment control plans/sheets shall indicate the specifications and maintenance schedules for the installation and upkeep of the erosion control mechanisms. Specifications shall be provided for the erosion control practices, perimeter protection(s), any silt fencing and fiber rolls to be used, storm drain inlet protections, stabilized construction entrance(s) and exits, site and excavation dewatering activities, vehicle tire wash area(s), vehicle and equipment servicing area(s), and the materials handling and storage area(s). These specifications should meet the same level of erosion and sediment control effectiveness established by practices identified in the San Francisco Bay Regional Water Quality Control Board's Erosion and Sediment Control Field Manual (510-622-2465), the Association of Bay Area Government's Manual of Standards for Erosion and Sediment Control (510-464-7900) and/or the California Stormwater Quality Association's Stormwater Best Management Practice Handbook – Construction (2003) (www.cabmphandbooks.com). Contact City Public Works Department Clean Water Program Specialist **Jim Barse (510-747-7930)** for additional assistance in obtaining copies of these reference documents.

The Contractor is responsible for ensuring that all of his/her workers and subcontractors are aware of and implement the specific stormwater quality control measures under the approved SWPPP. The Contractor(s) shall avoid creating excess dust when breaking asphalt/concrete and during excavation and grading. If water is to be used as a measure for dust control, use as little as possible. All wash water shall be kept out of streets, gutters and storm drains. Controls shall be implemented before construction begins and maintained until the end of construction at which time they shall be removed.

Failure to comply with the following approved construction Best Management Practices (“BMPs”) shall result in the issuance of correction notices, citations and/or a project stop order:

1. Gather all construction debris on a regular basis and place it in a dumpster or other container which is emptied or removed on a weekly basis. When appropriate, use tarps on the ground to collect fallen debris or splatters that could contribute to stormwater pollution. After breaking old pavement, remove all pieces to avoid contact with rainfall or runoff.
2. Remove on-site piles from the site on a regular basis. Only temporary storage is allowed. All temporary soil or other stockpiles on site shall be securely covered with a tarp, plastic sheeting or similar material.
3. Remove all dirt/mud, gravel, rubbish, refuse and green waste from the sidewalk, street pavement, and storm drain system adjoining the project site daily and prior to rain. Clean up leaks, drips and spills immediately. Avoid unnecessary driving on unpaved areas during wet weather.
4. Install and maintain stabilized construction entrances to minimize the tracking of dirt, mud, dust and debris onto the public right-of-way.
5. Broom-sweep the sidewalk and public street pavement adjoining the project site daily and prior to rain. Caked-on mud or dirt shall be scraped from these areas before sweeping. At the completion of work the street shall be washed and the wash water collected and disposed offsite.
6. Install filter materials (such as block and gravel bags, sandbags, filter fabric) at the storm drain inlets surrounding the project site. Such inlet protections shall be installed before: the start of the rainy season (October 1st), site de-watering activities, saw-cutting activities, or any other activity that may result in the discharge of material to the storm drain. Filter materials shall be maintained and/or replaced as necessary to minimize short-cutting and to remove sediment deposits and buildup. Accumulated sediment/debris shall be disposed of properly.
7. Vacuum saw-cutting slurry and remove from site. Do not allow saw-cut slurry to enter the storm water conveyance system.
8. Create a contained and covered area on the site for the storage of cement bags, paints, flammables, oils, fertilizers, pesticides, or any other materials used on the project site that have the potential for being discharged to the storm drain system by wind, exposure to rainfall or in the event of a material spill.
9. Never clean machinery, tools, brushes, etc. or rinse containers into a street, gutter, storm drain or stream. See the *Building Maintenance and Remodeling* BMP flyer and ACCWP BMP brochures for more information. Contact the Public Works Department at 747-7930 for assistance with obtaining these documents.
10. Ensure that concrete/gunite supply trucks or concrete/plaster finishing operations do not discharge wash water into street gutters or drains. Concrete trucks shall have a self-contained washout system or discharge to a dedicated, secure site washout in order to avoid the possibility of debris on city streets or discharge of wash water to the storm water conveyance system.
11. Minimize removal of natural vegetation or ground cover from the site in order to minimize the potential for erosion and sedimentation problems. Re-plant the area, and stabilize all cut and fill slopes as soon as possible after grading is completed. At a minimum, 4,000 pounds/acre of straw with tackifier should be placed on all exposed soils including those within active work areas and flat lots. **No site grading shall occur between October 1 and May 31 unless approved erosion and sedimentation control measures are in place.**

12. Provide erosion “prevention” and perimeter protection measures (soil stabilization) such as fiber rolls, silt fence, and/or sediment traps or basins. Ensure control measures are adequately maintained and in operable condition. Sediment controls, including inlet protection, are necessary but should be a secondary defense behind good erosion control and site perimeter measures.

13. Design site de-watering operations to prevent the discharge of any sediment, debris or other pollutants to the municipal storm water conveyance system.

14. Maintain and if necessary, repair, all erosion prevention and sediment control measures throughout the contract term. Replacement supplies should be kept on site. Site inspections shall be conducted before and after each storm event, and every 24 hours for extended storm events, to identify areas that contribute to erosion and sediment problems or any other pollutant discharges. If additional measures are needed, inform the City Engineer immediately and document all inspection findings and actions taken.

15. Conduct visual observations before, during, and after storm events. Any breach, malfunction, leakage, or spill observed that could result in the discharge of pollutants to surface waters that might not be visually detectable in stormwater shall trigger the collection of a sample of discharge. The following procedures shall be followed during sampling:

Sampling Procedures:

- For all construction activity, identify a sampling and analysis strategy and sampling schedule for potential discharges discovered through visual monitoring.
- Any breach, malfunction, leakage, or spill observed during visual monitoring which could result in the discharge of pollutants to surface waters that would not be visually detectable in stormwater shall trigger the collection of a sample of discharge.
- Samples shall be collected at all discharge locations which drain the areas identified by the visual observations and which can be safely accessed.
- Personnel trained in water quality sampling procedures shall collect stormwater samples.
- An uncontaminated sample shall be collected for comparison with the discharge sample.
- Sampling shall be conducted during the first two hours of discharge from rain events that occur during daylight hours and which generate runoff.
- The uncontaminated sample shall be compared to the samples of discharge using field analysis or through laboratory analysis. Analyses may include, but are not limited to indicator parameters such as: pH, specific conductance, dissolved oxygen, conductivity, salinity, and TDS
- All field and/or analytical data shall be kept in the SWPPP document, which is to remain at the construction site at all times.

16. Contact the City of Alameda Public Works Department at 510-747-7930 in the event of any slope failure, sediment pond overflow, or any other malfunction resulting in sediment-laden runoff. The City shall, in turn, report such incidents to the Regional Water Quality Control Board.

17. Clearly mark with the words, “No Dumping! Drains to Bay” or the equivalent, using methods approved by the City of Alameda, onto the on-site storm drain inlets. All on-site storm drains must be inspected and, if necessary, cleaned, at least once a year immediately prior to the rainy season. Additional cleaning may be required by the City of Alameda.

18. Require all concrete trucks used in the performance of the work to have a self-contained washout system, rather than do washout on the site. The idea is to avoid:

- a. An undesirable pile of concrete on the jobsite, and
- b. The possibility of debris on city streets.

The objective of these Standard Conditions is to ensure that the City's municipal storm water Permit, the National Pollutant Discharge Elimination System (NPDES) Permit provisions and additional Regional Water Quality Control Board requirements are adequately enforced.

These recommendations are intended to be used in conjunction with the State's Best Management Practices Municipal and Construction Handbooks, local program guidance materials from municipalities, Section 7.1.01, of the Standard Specifications and any other appropriate documents on storm water quality controls for construction. If you need assistance in checking these documents, contact Clean Water Program Specialist at 510-747-7930.

Failure to comply with the above program will result in issuance of noncompliance notices, citations, project stop orders or fines. The fine for noncompliance of the above program is two hundred and fifty dollars (\$250.00) per occurrence per day. The State under the Federal Clean Water Act can also impose a fine on the Contractor.

V. RESERVED.

W. RESERVED.

X. CLEAN AIR ACT OF 1970, ET SEQ. AND FEDERAL WATER POLLUTION CONTROL ACT AS AMENDED BY THE CLEAN WATER ACT OF 1977. The Contractor agrees to comply with federal clean air and water standards during the performance of this contract and specifically agrees to the following:

- The term "facility" means any building, plant, installation, structure, mine, vessel or other floating craft, location or site of operations owned, leased, or supervised by the Contractor and the subcontractors for the construction, supply and service contracts entered into by the Contractor;
- Any facility to be utilized in the accomplishment of this contract is not listed on the Environmental Protection Agency's List of Violating Facilities pursuant to 40 CFR, Part 15.20;
- In the event a facility utilized in the accomplishment of this contract becomes listed on the EPA list, this contract may be canceled, terminated, or suspended in whole or in part;
- It will comply with all the requirements of Section 114 of the Clean Air Act and Section 308 of the Water Pollution Control Act relating to inspection, monitoring, entry, reports, and information, as well as all other requirements specified in Section 114 and Section 308, respectively, and all regulations and guidelines issued thereunder;

- It will promptly notify the Government of the receipt of any notice from the Director, Office of Federal Activities, Environmental Protection Agency, indicating that any facility utilized or to be utilized in the accomplishment of this contract is under consideration for listing on the EPA List of Violating Facilities;
- It will include the provisions of Paragraph a. through g. in every subcontract or purchase order entered into for the purpose of accomplishing this contract, unless otherwise exempted pursuant to the EPA regulations implementing the Air or Water Acts above (40 CFR, Part 15.5), so that such provisions will be binding on each subcontractor or vendor;

In the event that the Contractor or the subcontractor for the construction, supply and service contracts entered into for the purpose of accomplishing this contract were exempted from complying with the above requirements under the provisions of 40 CFR, Part 15.5 (a), the exemption shall be nullified should the facility give rise to a criminal conviction (see 40 CFR 15.20) during the accomplishment of this contract. Furthermore, with the nullification of the exemption, the above requirements shall be effective. The Contractor shall notify the Government, as soon as the Contractor's or the subcontractors' facility is listed for having given rise to a criminal conviction noted in 40 CFR, Part 15.20.

Y. SUBMITTALS AND REQUEST FOR INFORMATION (RFI'S). The Contractor shall submit an RFI within five (5) business days of an event or question of fact arising under the Contract. The Engineer in charge of the project shall have ten (10) business days to respond to an RFI or any Submittal required to be made under the Contract.

Z. COMPLIANCE WITH THE CITY'S INTEGRATED PEST MANAGEMENT POLICY: The Contractor shall follow the requirements of the City's Integrated Pest Management (IPM) Policy to ensure the City is in compliance with its Municipal Regional Stormwater NPDES Permit, Order No. R2-2009-0074, issued by the California Regional Water Quality Control Board. Contractor shall follow the City's IPM Policy and utilize generally accepted IPM Best Management Practices (BMPs) to the maximum extent practicable for the control or management of pests in and around City buildings and facilities, parks and golf courses, urban landscape areas, rights-of-way, and other City properties.

Contractor will ensure that applicators will use the most current IPM technologies available to ensure the long-term prevention or suppression of pest problems and to minimize negative impacts on the environment, non-target organisms, and human health. Contractor will consider the options or alternatives listed below in the following order, before recommending the use of or applying any pesticide on City property:

1. No controls (e.g., tolerating the pest infestation, use of resistant plant varieties or allowing normal life cycle of weeds)
2. Physical or mechanical controls (e.g., hand labor, mowing, exclusion)
3. Cultural controls (e.g., mulching, disking, alternative vegetation), good housekeeping (e.g. cleaning desk area)
4. Biological controls (e.g., natural enemies or predators)
5. Reduced-risk chemical controls (e.g., soaps or oils)
6. Other chemical controls

Contractor shall ensure that only appropriate licensed applicators who are authorized and trained in pesticide application and who shall implement the City department's IPM standard operating procedures may apply pesticides to or within City property.

Restricted Chemicals

The term pesticide applies to herbicides, insecticides, fungicides, rodenticides and other substances used to control pests. Antimicrobial agents are not included in this definition of pesticides.

Contractor shall avoid the use of pesticides that threaten water quality, human health and the environment. Thus, the Contractor shall not use or promote the use of the following chemicals:

1. Acute Toxicity Category I chemicals as identified by the Environmental Protection Agency (EPA),
2. Organophosphate pesticides (e.g., those containing Diazinon, chlorpyrifos or malathion)
3. Pyrethroids (bifenthrin, cyfluthrin, beta-cyfluthrin, cypermethrin, deltamethrin, esfenvalerate, lambda-cyhalothrin, permethrin, and tralomethrin),
4. Carbamates (e.g., carbaryl),
5. Fipronil,
6. Copper-based pesticides unless:
 - a) Their use is judicious,
 - b) Other approaches and techniques have been considered, and;
 - c) Threat of impact to water-quality is prevented.

General Pesticide Usage Practices

Contractor shall ensure implementation of the following practices:

1. All pesticide applications shall be performed according to the manufacturer's instructions as detailed on the product label, and in accordance with all applicable state and local laws and regulations set forth to protect the environment, the public, and the applicator; and properly dispose of unused pesticides and their containers.
2. Pesticides that are not approved for aquatic use will not be applied to areas immediately adjacent to water bodies where through drift, drainage, or erosion, there is a reasonable possibility of a pesticide being transported into surface water.
3. Applicators will always avoid applications of pesticides that directly contact water, unless the pesticide is registered under Federal and California law for aquatic use.
4. Obtain coverage under the Statewide General NPDES Permit prior to discharging pollutants from the use of aquatic pesticides directly to the waters of the United States, or onto aquatic plants growing in waters of the United States (as required by the State Water Quality Resources Control Board).

Posting of Warning Notices Prior to Pesticide Application

1. If a pesticide with a "Warning" or "Danger" label indicator must be applied, the Contractor

shall post sufficient copies of warning notices (Notice of Scheduled Chemical Application for Pest Management) and MSDS to effectively alert the public (i.e., at all entrances to a building) no less than 48 hours in advance of the pesticide application. The warning notice must be completely filled out, including name of the pesticide (both chemical and brand name), time and date of application, and with a fully legible re-entry time.

Annual Pesticide Use Summary Report

Contractor shall track pesticide use on City properties and provide an annual pesticide use summary report of pesticide application on City properties. The annual pesticide use summary report shall be submitted to the City's Public Works Department Clean Water Program staff by a date to be determined in the scope of work and shall include the following information:

1. Product name and manufacturer
2. Active ingredient
3. The total quantity of each pesticide used during the prior fiscal year (from July 1 to June 30)
4. Target pest(s) for pesticide application(s).
5. Reasons for increases in use of pesticides that threaten water quality, specifically organophosphorous pesticides, pyrethroids, carbamates, fipronil, and copper-based pesticides.

Best Management Practices (BMPs)

To protect water quality, the Contractor shall implement the BMPs and control measures described below:

1. Follow all federal, state, and local laws and regulations governing the use, storage, and disposal of pesticides and training of pest control advisors and applicators.
2. Use the most effective, least toxic pesticides that will do the job, provided there is a choice. The agency will take into consideration the LD50, overall risk to the applicator, and impact to the environment (chronic and acute effects).
3. Apply pesticides at the appropriate time to maximize their effectiveness and minimize the likelihood of discharging pesticides in stormwater runoff. Avoid application of pesticides if rain is expected (this does not apply to the use of pre-emergent herbicide applications when required by the label for optimal results.)
4. Employ techniques to minimize off-target application (i.e. spray drift) of pesticides, including consideration of alternative application techniques. For example, when spraying is required, increase drop size, lower application pressure, use surfactants and adjuvants, use wick application, etc.
5. Apply pesticides only when wind speeds are low.
6. Mix and apply only as much material as is necessary for treatment. Calibrate application equipment prior to and during use to ensure desired application rate.
7. Do not mix or load pesticides in application equipment adjacent to a storm drain inlet, culvert, or watercourse.
8. Properly inspect applicator equipment to prevent accidental pesticide leaks, spills and hazards to applicators and the environment.
9. Meet local fire department and Alameda County Agricultural Commissioner storage requirements for pesticide products. Provide secondary containment for liquids if required.

10. Prepare spill kits, store the kits near pesticides, and train employees to use them.
11. Store pesticides and other chemicals indoors in a locked and posted storage unit, as per California Code of Regulations.
12. Store pesticides in labeled containers, as per California Code of Regulations.
13. Rinse empty pesticide/herbicide containers, and empty in the spray, as per California Code of Regulations.
14. Dispose of triple-rinsed empty pesticide containers according to recommendations of the Alameda County Agricultural Commissioner and the manufacturer.
15. Try to find a qualified user for any unwanted pesticides, or return to the manufacturer if unopened. If disposal is required, contact Alameda County's Household Hazard Waste Collection Program at (510) 670-6460 between 8:30 AM and 5:00 PM., Monday through Friday, to make appropriate disposal arrangements, or to recycle the material.
16. If changing pesticides or cleaning spray tanks, use tank rinse water as the product, over a targeted area within the application site.
17. Irrigate slowly to prevent runoff, and do not over-water.

AA. ENVIRONMENTAL PROTECTION AGENCY (EPA) REQUIRES CONTRACTORS TO BECOME CERTIFIED LEAD RENOVATORS. All contractors who perform renovation, repair, or painting projects that may disturb lead paint to be Lead RRP Certified. The Certified Lead Renovator Training Course is now available at www.cleanedison.com. The EPA's new requirement will affect most contractors conducting common renovation and repair work activities since demolition, deconstruction, sanding, and cutting can generate hazardous lead dust and chips by disturbing lead-based paint. This lead contamination has been proven harmful to both adults and children. To protect against these risks, the EPA is now requiring that all contractors be enrolled in the Lead RRP-Certification by September 30, 2010 in order to perform renovation, repair and painting projects in homes, rental facilities, child-occupied facilities, and schools built before 1978. For any contractor performing this work without the Lead RRP Certification, the EPA may seek penalties of up to \$37,500 per violation, per day.

SECTION III. SCOPE OF WORK

A. WORK TO BE DONE. In general, the work is related to pavement markings and traffic signage. The scope of work includes, but is not limited to performing the following work:

1. Striping and markings,
2. Signs and poles,
3. Pedestrian and traffic control, and
4. Placement of temporary no parking signs.

The work to be done consists of furnishing all labor, tools, equipment, materials, constructions, coordination, etc., except as herein specified, and doing all work as shown in future, agreed upon work, and specified in the project specifications (manual), exhibits, and attachments.

The usage of the services are on an as-needed basis, so if the demand is not there, then the services will not be requested. For each on-call service request, the contractor and the City will agree upon the specific scope of work and cost for that project using the unit costs of each traffic control device. The City has the right to retain other contractors in its sole discretion when the City believes there will be an economic or other significant advantage for doing so. **Services will be provided on a unit cost basis as indicated in Exhibit A, not to exceed \$150,000 per fiscal year.** The City is seeking to contract only with individual firms that specialize in all of the identified areas. No minimum amount of work is guaranteed under this contract agreement.

Unless approved in writing by the Contractor, the minimum amount of on-call work for each set of requested work shall not be less than \$10,000. In the event that the requested work is less than \$10,000, the contractor will be paid the cost of the work, plus fifteen percent (15%).

The Notice to Proceed (NTP) for this project is tentatively scheduled to be issued in October 2020.

The Initial Project Submittal Package shall address the entire project, and shall include the Pedestrian and Traffic Control Plan (typical, for a mobile operation within the roadway) and SWPPP. Contractor shall not commence work in the field until Engineer has approved the Initial Project Submittal Package.

B. ALTERATIONS. The City of Alameda reserves the right to increase or decrease the quantity of any item or portion of work, or to omit portions of the work as may be deemed necessary or expedient by the Engineer; also to make such alterations or deviations, increases or decreases, additions or omissions in the plans and specifications, as may be determined during the progress of the work to be necessary and advisable.

C. REMOVAL OF OBSTRUCTIONS. The Contractor shall remove and dispose of all structures, debris, or other obstruction of any character to the construction of the project if and as required by the Engineer.

D. CLEAN UP. Contractor shall leave the work site in an acceptable clean manner at the end of each work day. Upon completion and before making application for acceptance of the work, the Contractor shall clean the street or road, borrow pits, and all ground occupied by the Contractor in connection with the work, of all rubbish, excess materials, temporary structures, and equipment; and all parts of the work shall be left in a neat and presentable condition.

SECTION IV. CONTROL

A. AUTHORITY OF THE ENGINEER. The Engineer shall decide all questions which may arise as to the quality or acceptability of materials furnished and work performed; the manner of performance and rate of progress of the work; the interpretation of the plans and specifications; the acceptable fulfillment of the contract on the part of Contractor; and all questions as to claims and compensation.

The Engineer's decision shall be final and he/she shall have executive authority to enforce and make effective such decisions and orders that the Contractor fails to carry out promptly.

B. PLANS. All authorized alterations affecting the requirements and information given on the approved plans shall be in writing. No changes shall be made to any plans or drawings after the same have been approved by the Engineer, except by direction of the Engineer.

Working drawings of plans for any structure not included in the plans furnished by the Engineer shall be approved by the Engineer before any work involving these plans shall be performed, unless approval is waived in writing by the Engineer.

Notwithstanding the foregoing, the Contractor agrees that approval by the Engineer of the Contractor's working plans does not relieve the Contractor of any responsibility for the accuracy of the dimensions and details thereof, and that the Contractor shall be responsible for agreement and conformity of his/her working plans with the approved plans and specifications.

C. CONFORMITY WITH PLANS AND ALLOWABLE DEVIATION. Finish surfaces in all cases shall conform with the lines, grades, cross sections, and dimensions shown on the approved plans. Deviations from the approved plans, as may be required by the exigencies of construction will be determined in all cases by the Engineer and authorized in writing.

D. COORDINATION OF PLANS, SPECIFICATIONS, AND SPECIAL PROVISIONS. These specifications, the plans, special provisions and all supplementary documents are essential parts of the contract, and a requirement occurring in one is as binding as though occurring in all. They are intended to be cooperative, to describe, and to provide for a complete work. The following documents govern the project in the following order of precedence:

- Change Order and written Orders
- Addenda
- Contract
- Bid Proposal and Schedule of Values
- Permits from other agencies
- Special Provisions
- Technical Provisions
- Project Plans
- City Approved Shop Drawings
- General Requirements

- City of Alameda Standard Plans
- State Standard Specifications
- State Standard Plans
- Alameda County Standard Plans

E. INTERPRETATION OF PLANS AND SPECIFICATIONS AND ADDENDA THERETO. Should it appear that the work to be done, or any matter relative thereto, is not sufficiently detailed or explained in these specifications, plans, and the special provisions, the Contractor shall apply to the Engineer for such further explanation as may be necessary to carry out the work. Upon such application by the Contractor or prospective bidder, or in the event that it appears expedient to the Engineer to further explain, clarify, or amend these specifications, special provisions and plans, the Engineer shall issue addenda thereto and such addenda shall constitute a part hereof, and shall be binding on the Contractor. It is up to the Contractor to check before the bid date that Contractor has all paperwork to complete the bid.

Addenda will be uploaded to the City's webpage, <https://www.alamedaca.gov/BUSINESS/Bid-on-City-Contracts> and located within the specific project. Builders Exchanges and firms on the City's active list of contractors will be notified via email of the Addenda and provided with a link to the City's webpage. If the addendum is issued after a pre-bid meeting is held, the addendum will also be forwarded by email, to all attendees who have furnished contact information. All prospective bidders are responsible for checking the City's website and/or inquiring at the Public Works Department (510-747-7930) within four (4) working days prior to the bid opening, to determine if any addenda have been issued. Do not rely upon third party providers of the original plans and specs to issue all addenda. Contractor shall acknowledge receipt of all addenda on the Bid and those Bids that do not have acknowledgment of all addenda will be considered non-responsive.

In the event of any discrepancy between any drawing and the figures written thereon, the figures shall be taken as correct.

F. SUPERINTENDENCE. The Contractor is solely responsible for the Work done by his subcontractors or other employees, and all orders or instructions from the Engineer shall be through the Contractor.

At all times during the progress of the Work, the Contractor shall have a competent, authorized superintendent present at the construction site who has complete authority to represent and to act for the Contractor. The Contractor shall not change the superintendent except with consent of the City Engineer, unless the superintendent proves to be unsatisfactory to the Contractor and ceases to be in his employ. The superintendent shall represent the Contractor in his absence and all directions given to him shall be binding as if given to the Contractor.

Whenever the Contractor or the superintendent is not present on any particular part of the Work where the Engineer may wish to give direction, the Engineer may order the Work to stop, or not pay for the work done during that time.

The Contractor shall coordinate the Work of his subcontractors. The Contractor is responsible for the specific scheduling of the Work of his Subcontractors at the proper time to avoid delay or injury to either work or materials.

G. STRIPING LAYOUT. Striping layout shall be at the contractor's expense and performed by the contractor's staff who is qualified to do layout work.

H. INSPECTION. The Engineer shall at all times have access to the work during construction and shall be furnished with every reasonable facility for ascertaining full knowledge respecting the progress, workmanship, and character of materials used and employed in the work.

The Contractor shall give at least 48 hours notice in writing when he will require inspection. Inspection will only be carried out for substantial quantities of work ready for inspection.

The Contractor shall contact the City's representative by 11:00 a.m. the day prior to any special inspections so the City can schedule the inspections. If the contractor does not perform work that requires the special inspection as previously communicated to City's representative then the contractor will be responsible for all costs associated with special inspection regardless of the fact that the special inspector did not perform any services.

Whenever the Contractor varies the period during which work is carried on each day, he shall give due notice to the Engineer, so that proper inspection may be provided. Any work done in the absence of the Engineer is subject to rejection.

The inspection of the work shall not relieve the Contractor of any of his/her obligations to fulfill the contract as prescribed. Defective work shall be made good and unsuitable materials may be rejected, notwithstanding the fact that such defective work and unsuitable materials have been previously overlooked by the Engineer and accepted or estimated for payment.

Inspection hours for construction shall be from **8 AM through 5 PM**, Monday through Friday, excluding City Holidays, and shall constitute "normal inspection hours." The Public Works Department Inspectors work on Fridays and can be reached at **510-747-7900**. Unless prior written authorization has been received from the Engineer, the Contractor shall not perform any work outside of these hours except for general clean up, demobilization, and placement of no-parking signs. The Contractor shall pay the salary and benefits, including overtime, of the City employee(s) for inspection of any work performed outside of the normal inspection hours. Projects financed in whole or in part with state funds shall be subject to inspection at all times by the Director of Public Works of the State of California, or his agents.

I. REMOVAL OF DEFECTIVE AND UNAUTHORIZED WORK. All work which is defective in its construction or deficient in any of the requirements of these specifications shall be remedied, or removed and replaced by the Contractor in an acceptable manner and no compensation will be allowed for such correction.

Any work done beyond the lines and grades shown on the plans or established by the Engineer, or any extra work done without written authority, shall be considered as unauthorized and will not be paid for.

Upon failure on the part of the Contractor to comply forthwith with any order of the Engineer made under the provisions of this article, the Engineer shall have the authority to cause defective work to be remedied, or removed and replaced, and unauthorized work to be removed, and to deduct the cost thereof from any monies due or to become due the Contractor.

The fact that the work and materials have been inspected from time to time, and payments on account have been made, does not relieve the Contractor from the responsibility of replacing and making good any defective work or materials that may be discovered within one year from the date of the completion of the work by the Contractor and its acceptance by the City.

J. FINAL INSPECTION. Whenever the work provided and contemplated by the contract shall have been satisfactorily completed, the Engineer will make the final inspection.

K. FINAL GUARANTEE. It is understood that the Contractor is skilled in the trade or calling necessary to perform the work set forth within the plans and specifications, and that the City of Alameda, not being skilled in such matters, relies upon the Contractor to do and perform all work, acts, and things necessary to carry out the contract in the most skilled and desirable manner, and the Contractor guarantees the workmanship and materials to be the best of their kind. The acceptance of any part or of the whole of the work by the City does not operate to release the Contractor or the Contractor's surety from said guarantee.

The Contractor shall be held responsible for and must make good any defects through faulty, improper or inferior workmanship or materials arising from or discovered in any part of the contract work within one year of the completion and acceptance of the same. The bond for faithful performance, furnished by the Contractor, shall cover such defects and protect the City of Alameda against any and all such defects.

Nothing in this section supersedes contractor obligations for repair and replacement of work pursuant to the Public Contract Code.

SECTION V. CONTROL OF MATERIAL

A. SAMPLES AND TESTS. At the option of the Engineer, the source of supply of each of the materials shall be approved by the Engineer before delivery is started and before such material is used in the work. Representative preliminary samples of the character and quality prescribed shall be submitted by the Contractor or producer of all materials to be used in the work for testing or examination as desired by the Engineer.

All tests of materials furnished by the Contractor shall be made in accordance with commonly recognized standards of national organizations and such special methods and tests as are prescribed in these specifications.

The Contractor shall furnish such samples of materials as are requested by the Engineer without charge. No material shall be used until it has been approved by the Engineer. Samples will be secured and tested whenever necessary to determine the quality of material.

B. DEFECTIVE MATERIALS. All materials not conforming to the requirements of these specifications shall be considered as defective, and all such materials, whether in place or not, shall be rejected. They shall be removed immediately from the site of the work unless otherwise permitted by the Engineer.

Upon failure on the part of the Contractor to comply with any order of the Engineer made under the provisions of this article, the Engineer shall have the authority to remove and replace defective material and to deduct the cost of removal and replacement from any monies due or to become due the Contractor.

SECTION VI. PROSECUTION AND PROGRESS

A. PROGRESS OF THE WORK AND TIME FOR COMPLETION. The Contractor shall submit the Initial Project Submittal Package to the City Engineer for review. The Initial Project Submittal Package shall address the entire project, and shall include the Pedestrian and Traffic Control Plan (typical, for a mobile operation within the roadway) and SWPPP. Contractor shall not commence work in the field until Engineer has approved the Initial Project Submittal Package.

The Contractor shall not commence construction on any section of the work until such time that he/she shall have on the ground, or can furnish definite assurance to the Engineer that there will be available when required, all the materials necessary to complete the section of the work upon which construction is to begin.

The Contractor shall submit additions to the Pedestrian and Traffic Control Plan ten (10) working days in advance of any work that was not covered by the Pedestrian and Traffic Control Plan submitted in the Initial Project Submittal Package.

B. SUBLETTING AND ASSIGNMENT. The Contractor shall give his/her personal attention to the fulfillment of the contract and shall keep the work under his/her control.

Subcontractors will not be recognized as such, and all persons engaged in the work of construction will be considered as employees of the Contractor, and their work shall be subject to the provisions of the contract and specifications.

Where a portion of the work sublet by the Contractor is not being prosecuted in a manner satisfactory to the Public Works Director, the subcontractor shall be removed immediately on the requisition of the Engineer and shall not again be employed on the work.

This contract may be assigned only on written consent of the City Council.

C. CHARACTER OF WORKER. If any subcontractor or person employed by the Contractor shall fail or refuse to carry out the directions of the Engineer or shall appear to the Engineer to be incompetent or to act in a disorderly manner, said worker shall be discharged immediately on the requisition of the Engineer and such person shall not again be employed on the work.

D. TEMPORARY SUSPENSION OF WORK. The Engineer shall have the authority to suspend the work wholly or in part for such period as he/she may deem necessary, due to unsuitable weather, or to such other conditions as are considered unfavorable for the suitable prosecution of the work, or for such time as he/she may deem necessary, due to the failure on the part of the Contractor to carry out orders given or to perform any of the provisions of the work. The Contractor shall immediately obey such orders of the Engineer and shall not resume suspended work until ordered in writing by the Engineer.

E. TIME OF COMPLETION AND LIQUIDATED DAMAGES. It is agreed by the parties to the contract that in case all the work called for in each set of on-call work is not completed within a total maximum of 25 working days, starting from the date that the work was submitted to the Contractor, damage will be sustained by the City of Alameda, and that it is and will be impracticable to determine the actual damage which the City will sustain in the event of and by reason of such delay; and it is therefore agreed that the Contractor will pay to the City of Alameda the sum of \$500 per day for each and every day's delay beyond the time prescribed to complete the work; and the Contractor agrees to pay such liquidated damages as herein provided, and in case the same are not paid, agrees that the City of Alameda may deduct the amount thereof from any money due or that may become due the Contractor under the contract.

It is further agreed that in case the work called for is not finished and completed in all parts and requirements within the time specified, the City Council shall have the right to extend the time for completion or not, as may seem best to serve the interest of the City; and if it decides to extend the time limit for the completion of the contract, it shall further have the right to charge the Contractor, his heirs, assigns, or sureties, and to deduct from the final payment for the work, all or any part, as it may deem proper, of the actual cost of engineering, inspection, superintendence, and other overhead expenses which are directly chargeable to the contract, and which accrue during the period of such extensions, except that the cost of final surveys and preparation of final estimate shall not be included in such charges.

The Contractor shall not be assessed with liquidated damages nor the cost of engineering and inspection during any delay in the completion of the work caused by acts of God or of the public enemy, acts of the City, fire, floods, epidemics, quarantine restrictions, strikes, freight embargoes, and unusually severe weather or delays of subcontractors due to such causes; provided that the Contractor shall within ten (10) days from the beginning of such delay notify the Engineer in writing of the causes of delay. The Engineer shall ascertain the facts and the extent of the delay and his findings of the facts thereon shall be final and conclusive.

F. SUSPENSION OF CONTRACT. If, at any time, in the opinion of the City Council, the Contractor has failed to supply an adequate working force, or material of proper quality, or has failed in any other respect to prosecute the work with the diligence and force specified and intended in and by the terms of the contract, notice thereof in writing will be served upon him; and shall he neglect or refuse to provide means for a satisfactory compliance with the contract, as directed by the Engineer, within the time specified in such notice, the City Council in any such case shall have the power to suspend the operation of the contract. Upon receiving notice of such suspension, the Contractor shall discontinue said work, or such parts of it as the City Council may designate. Upon such suspension, the Contractor's control shall terminate, and thereupon the City Council or its duly authorized representative may take possession of all or any part of the Contractor's materials, tools, equipment and appliances upon the premises, and use the same for the purpose of completing said contract, and hire such force and buy or rent such additional machinery, tools, appliances, and equipment, and buy such additional materials and supplies at the Contractor's expense as may be necessary for the proper conduct of the work and for the completion thereof; or may employ other parties to substitute other machinery or materials, and purchase the materials contracted for, in such manner as the City Council may deem proper; or the City Council may annul and cancel the contract and relet the work or any part thereof. Any excess of cost arising therefrom over and

above the contract price will be charged against the Contractor and his sureties, who will be liable therefor. In the event of such suspension, all monies due the Contractor or retained under the terms of this contract shall be forfeited to the City; but such forfeiture shall not release the Contractor or his sureties from liability for failure to fulfill the contract. The Contractor and his sureties will be credited with the amount of money so forfeited toward any excess of cost over and above the contract price, arising from the suspension of the operations of the contract and the completion of the work by the City as above provided; the Contractor will be so credited with any surplus remaining after all just claims for such completion have been paid.

In the determination of the question whether there has been any such noncompliance with the contract as to warrant the suspension or annulment thereof, the decision of the City Council shall be binding on all parties to the contract.

G. RIGHT-OF-WAY. The right-of-way sufficient for the work to be constructed will be provided by the City. The Contractor shall make his own arrangements, and pay all expenses for additional area required by him outside of the limits of right-of-way, unless otherwise provided in the special provisions. Contractor's staging area must be approved by the Engineer.

SECTION VII. GENERAL MEASUREMENTS AND PAYMENT

A. **MEASUREMENTS AND PAYMENT.** Payment for work done under the contract shall be made on the basis of the sums as calculated from the finally measured quantities of work done and the agreed unit and lump sum prices. Payment shall be full compensation for furnishing all labor, materials, tools and equipment and doing all the work necessary to construct the items for which payment is being made, complete in place as shown on the plans and described in the specifications.

B. **PROGRESS PAYMENTS.** The City shall, once each month, cause an estimate in writing to be made by the City Engineer of the total amount of work done and the acceptable materials furnished and delivered by the Contractor on the ground and not used at the time of such estimate, and the value thereof. The City of Alameda shall retain five percent (5%) of such estimated value of the work done and fifty percent (50%) of the value of the materials so estimated to have been furnished and delivered and unused, as aforesaid, as part security for the fulfillment of the contract by the Contractor, and shall monthly pay to the Contractor, while carrying on the work, the balance not retained, as aforesaid, after deducting therefrom all previous payments and all sums to be kept or retained under the provisions of the contract. No such estimate or payment shall be required to be made, when, in the judgment of the City Engineer, the work is not proceeding in accordance with the provisions of the contract, or when in his judgment, the total value of the work done since the last estimate amounts to less than Three Hundred Dollars (\$300.00). No such estimate or payment shall be construed to be an acceptance of any defective work or improper materials.

Partial Payments

Progress payments shall be in accordance with Section 9-1.06 of the State Standard Specifications "Partial Payments", as currently amended, and these special provisions. The City, once in each month, shall cause an estimate in writing to be made by the Engineer. The estimate shall include the total amount of work done and acceptable materials furnished, provided the acceptable materials are listed as eligible for partial payment as materials in the special provisions and are furnished and delivered by the Contractor on the ground and not used or are furnished and stored for use on the Contract, if the storage is within the City and the Contractor furnishes evidence satisfactory to the Engineer that the materials are stored subject to or under the control of the City, to the time of the estimate, and the value thereof. The estimate shall also include any amounts payable for mobilization.

The amount of any material to be considered in making an estimate will in no case exceed the amount thereof which has been reported by the Contractor to the Engineer. Only materials to be incorporated in the work will be considered. The estimated value of the material established by the Engineer will in no case exceed the Contract price for the item of work for which the material is furnished.

Contractor warrants that upon signature of pay estimate, all work has been performed in strict compliance with the Contract Documents, and all work for which progress payments have been previously issued and payment has been received from City, shall be free and clear of all third-party claims, stop notices, security interests, and encumbrances.

Payment of all, or any part, of an estimate in writing may be withheld on account of any of the following:

1. Defective work not remedied;
2. Third-party claims against Contractor or City arising from the acts or omissions of Contractor or subcontractors;
3. Stop Notices;
4. Failure of Contractor to make timely payments due to subcontractors for material or labor;
5. Damage to the City or others for which Contractor is responsible;
6. Failure of Contractor to maintain, update, and submit record documents;
7. Failure of Contractor to submit schedules or their updates as required by the Contract Documents;
8. Performance of the work by Contractor without properly processed shop drawings;
9. Liquidated damages assessed;
10. Any other failure of Contractor to perform its obligations under the Contract Documents.

SUBSTITUTION OF SECURITIES FOR WITHHELD ACCOUNTS. Pursuant to Chapter 13 (commencing with Section 4590), Division 5, Title 1 of the Government Code of the State of California, securities may be substituted for any monies withheld by a public agency to ensure performance under a contract. At the request and expense of the Contractor, securities equivalent to the amount withheld shall be deposited with the public agency, or with a state or federally chartered bank as the escrow agent, who shall pay such monies to the Contractor upon satisfactory completion of the contract.

Securities eligible for substitution under this section shall include those listed in Section 22300 of the Public Contract Code of the State of California or bank or savings and loan certificates of deposit.

Contractor shall be the beneficial owner of any securities substituted for monies withheld and shall receive any interest thereon.

Any escrow agreement entered into pursuant to this section shall contain, as a minimum, the following provisions:

1. The amount of securities to be deposited.
2. The terms and conditions of conversion to cash in case of the default of the Contractor.
3. The termination of the escrow upon completion of the contract.

C. NOTICE OF COMPLETION. Whenever the work provided and contemplated by the contract shall have been satisfactorily completed, the Engineer will make the final inspection.

When such final inspection shows that the work has been completed in conformance with the plans, specifications and special provisions, the Engineer will recommend the formal acceptance of the work by the City Council; and upon such acceptance, Notice of Completion will be recorded. The said work shall not be deemed completed until the same is accepted by the City.

D. PAYMENT OF THE RETENTION. The City Engineer shall, after the completion of the contract, total all amounts retained under the provisions of the contract. Final payment of retention shall be in conformance with Public Contract Code Section 7107.

It is mutually agreed between the parties to the contract that no certificate given or payments made under the contract, except the final certificate of final payment, shall be conclusive evidence of the performance of the contract, either wholly or in part, against any claim of the Contractor; and no payment shall be construed to be an acceptance of any defective work or improper materials.

The Contractor further agrees that the payment of the final amount due under the contract, and the adjustment and payment for any work done in accordance with any alterations of the same, shall release the City of Alameda, its officers, employees and agents from any and all claims or liability on account of work performed under the contract or any alteration thereof.

SPECIAL PROVISIONS

SECTION VIII. REFERENCED SPECIFICATIONS

A. General. The Work shall comply in all aspects with the latest edition of the California Manual on Uniform Traffic Control Devices and Caltrans Standard Plans and Standard Specifications. The Standard Specifications issued by the State of California, Department of Transportation will hereinafter be referred to as "Standard Specifications", "State Standard Specifications", or "Caltrans Standard Specifications".

B. STATE STANDARD SPECIFICATIONS ADOPTION. The work embraced herein shall be done in accordance with the appropriate provisions of construction detail of the specifications entitled "State of California, Department of Transportation, Standard Specifications", latest revision, insofar as the same apply, which specifications are hereinafter referred to as the Standard Specifications, and in accordance with the following Special Provisions.

Whenever in the State Standard Specifications the following terms are used, they shall be understood to mean and refer to the following:

Department of Public Works or Department of Transportation	To the Engineering Division
Director of Public Works	To the Public Works Director
Engineer	To the City Engineer, acting either directly or through properly authorized agents, such agents acting within the scope of the particular duties entrusted to them.
Laboratory	To the designated Laboratory authorized by the City of Alameda to test materials and Work involved in the contract.
State	To the City of Alameda

Other terms appearing in the State Standard Specifications, and these specifications, shall have the intent and meaning specified in Section I, Definition of Terms, of the Standard Specifications.

In case of conflict between the Standard Specifications and these Special Provisions, the special provisions shall take precedence over and be used in lieu of such conflicting portions.

SECTION IX. QUANTITIES MEASUREMENT AND PAYMENT

The quantities in bid schedule are estimate of the quantities of work to be done and materials to be furnished, and the City of Alameda does not expressly or by implication agree that the actual amount of work will correspond therewith, but reserves the right to increase or decrease the amount of any class or portion of the work or to omit portions of the work that may be deemed necessary or expedient to the Engineer.

Quantities shall be determined by the Contractor from plans and specifications, and /or pre-construction meeting and walk - through. Any discrepancy or conflict shall be reported to the Project Manager. Contractor shall be held responsible for any discrepancies or conflicts not reported to the Project Manager seventy-two (72) hours prior to the bid opening.

The basis of award of contract shall be by the City of Alameda for the lowest and best bid that will best serve the City's need. The contract shall be awarded with the entire project based bid, not including add alternates, depending on available funding.

The City reserves the right to reject any, any portion, or all bids.

1. Removal of Striping, Markings, and Reflectors

a. Method of Measurement

Removal of striping or standard Details will be measured per linear foot (LF) along the line of the traffic stripe or standard Detail, without deductions for gaps in broken traffic stripes. For traffic stripe details requiring multiple lines, the composite section will count as a lineal foot of striping for payment, not the total length of the individual component lines. For standard Details that contain a mix of striping and reflectors, the cost to remove reflectors shall be included in the removal. Measurement will be performed in the field by the Contractor upon completion and checked by the Engineer.

Removal of any type of pavement marking will be measured per square foot (SF) removed. The quantity of square footage for specific pavement markings shall be what is indicated in the most recent version of the Caltrans Standard Plans.

b. Payment

The contract unit price paid per linear foot or square foot for removal of striping, markings and reflectors shall include full compensation for furnishing all labor, materials, tools, equipment and incidentals, and for doing all the work for removal, providing storage and disposal of removed material, and for providing personnel protective equipment, training, air monitoring, and medical surveillance and incidentals, as described in the "Remove Yellow Traffic Stripe and Payment Marking" technical requirement section of this project manual, and as directed by the Engineer, and no additional or separate compensation will be made thereof.

Full compensation for removal and disposal of raised pavement markers, white thermoplastic striping, and white thermoplastic markings shall be considered as included in the contract unit price paid for "Remove Striping and Markings" and shall include full compensation for furnishing all labor, materials, tools, equipment and incidentals and for doing the work involved removing and disposal of materials, and no separate payment will be made thereof.

The contract unit price shall include full compensation for mobilization as described in the "Mobilization" Technical Requirement section of this project manual and no additional compensation will be allowed thereof. Full compensation for furnishing all labor, materials, tools, equipment and incidentals and for doing the work involved in the procurement, setup and maintenance of the staging area shall be considered as included as part of "Mobilization".

The contract unit price shall include full compensation for pedestrian and traffic control. Work associated with pedestrian and traffic control shall include all planning, drafting of plans, costs for labor, materials, equipment and incidentals necessary to provide construction area signs, temporary traffic control including, but not limited to, lane closures and rerouting and other measures to control and maintain traffic during daily operations. Flaggers are a requirement of pedestrian and traffic control. Full compensation for traffic control systems include all costs to maintain traffic by placing and removing temporary signs, striping, flaggers, cones, barricades, etc., as specified in the Standard Specifications of the State of California, as described in the "Traffic and Pedestrian Control" technical requirement section of this project manual, and as directed by the Engineer, and no additional compensation will be allowed thereof.

The contract unit price shall include full compensation for providing a written work plan and for doing all the work involved in preparing the Lead Compliance Plan including paying the Certified Industrial Hygienist, as described in the "Remove Yellow Traffic Stripe and Pavement Markings" section of this project manual, and no separate payment will be made thereof.

2. Painting of Striping and Markings

a. Method of Measurement

Painting of striping or standard Details will be measured per linear foot (LF) along the line of the traffic stripe or standard Detail, without deductions for gaps in broken traffic stripes. For traffic stripe details requiring multiple lines, the composite section will count as a lineal foot of striping for payment, not the total length of the individual component lines. For standard Details that contain a mix of striping and reflectors, the cost to install reflectors shall be included in the painting. Measurement will be performed in the field by the Contractor upon completion and checked by the Engineer.

Painting of Parking T's or L's will be measured per each (EA) installation. Measurement will be performed in the field by the Contractor upon completion and checked by the Engineer.

Painting of any type of pavement marking (aside from Parking T's or L's) will be measured per square foot (SF) painted. The quantity of square footage for specific pavement markings shall be what is indicated in the most recent version of the Caltrans Standard Plans.

b. Payment

The contract unit price paid per linear foot, each, or square foot for painting of striping and markings shall include full compensation for furnishing all labor, materials, tools, equipment and incidentals, and for doing all the work involved in applying thermoplastic traffic stripes, pavement markers, complete in place, including any necessary cat tracks, dribble lines, alignment for stripes, layout work and temporary traffic stripes and pavement markers, as shown on the plans, as specified in the Technical Specifications section "Traffic Stripes, Pavement Markers and Marking," and as directed by the Engineer and no additional compensation will be made thereof. Payment for thermoplastic striping and markings shall be paid as part of this bid item.

The contract unit price shall include full compensation for mobilization as described in the "Mobilization" Technical Requirement section of this project manual and no additional compensation will be allowed thereof. Full compensation for furnishing all labor, materials, tools, equipment and incidentals and for doing the work involved in the procurement, setup and maintenance of the staging area shall be considered as included as part of "Mobilization".

The contract unit price shall include full compensation for pedestrian and traffic control. Work associated with pedestrian and traffic control shall include all planning, drafting of plans, costs for labor, materials, equipment and incidentals necessary to provide construction area signs, temporary traffic control including, but not limited to, lane closures and rerouting and other measures to control and maintain traffic during daily operations. Flaggers are a requirement of pedestrian and traffic control. Full compensation for traffic control systems include all costs to maintain traffic by placing and removing temporary signs, striping, flaggers, cones, barricades, etc., as specified in the Standard Specifications of the State of California, as described in the "Traffic and Pedestrian Control" technical requirement section of this project manual, and as directed by the Engineer, and no additional compensation will be allowed thereof.

3. Installation of Thermoplastic Striping and Markings

a. Method of Measurement

Installation of striping or standard Details will be measured per linear foot (LF) along the line of the traffic stripe or standard Detail, without deductions for gaps in broken traffic stripes. For traffic stripe details requiring multiple lines, the composite section will count as a lineal foot of striping for payment, not the total length of the individual component lines. For standard Details that contain a mix of striping and reflectors (and/or markers), the cost to install reflectors and/or markers shall be included in the installation. Measurement will be performed in the field by the Contractor upon completion and checked by the Engineer.

Installation of Parking T's or L's will be measured per each (EA) installation. Measurement will be performed in the field by the Contractor upon completion and checked by the Engineer.

Installation of any type of pavement marking (aside from Parking T's or L's) will be measured per square foot (SF) installed. The quantity of square footage for specific pavement markings shall be what is indicated in the most recent version of the Caltrans Standard Plans.

b. Payment

The contract unit price paid per linear foot, each, or square foot for installation of striping and markings shall include full compensation for furnishing all labor, materials, tools, equipment and incidentals, and for doing all the work involved in applying thermoplastic traffic stripes, pavement markers, complete in place, including any necessary cat tracks, dribble lines, alignment for stripes, layout work and temporary traffic stripes and pavement markers, as shown on the plans, as specified in the Technical Specifications section "Traffic Stripes, Pavement Markers and Marking," and as directed by the Engineer and no additional compensation will be made thereof. Payment for thermoplastic striping and markings shall be paid as part of this bid item.

The contract unit price shall include full compensation for mobilization as described in the "Mobilization" Technical Requirement section of this project manual and no additional compensation will be allowed thereof. Full compensation for furnishing all labor, materials, tools, equipment and incidentals and for doing the work involved in the procurement, setup and maintenance of the staging area shall be considered as included as part of "Mobilization".

The contract unit price shall include full compensation for pedestrian and traffic control. Work associated with pedestrian and traffic control shall include all planning, drafting of plans, costs for labor, materials, equipment and incidentals necessary to provide construction area signs, temporary traffic control including, but not limited to, lane closures and rerouting and other measures to control and maintain traffic during daily operations. Flaggers are a requirement of pedestrian and traffic control. Full compensation for traffic control systems include all costs to maintain traffic by placing and removing temporary signs, striping, flaggers, cones, barricades, etc., as specified in the Standard Specifications of the State of California, as described in the "Traffic and Pedestrian Control" technical requirement section of this project manual, and as directed by the Engineer, and no additional compensation will be allowed thereof.

4. Installation of Green Bike Markings (Methyl Methacrylate Marking)

a. Method of Measurement

"Installation of Green Bike Markings (Methyl Methacrylate Marking)" will be measured per square foot (SF) along the edges of the marking. Measurement will be performed in the field by the Contractor upon completion and checked by the Engineer.

b. Payment

The contract unit price paid per square foot for green bike markings (methyl methacrylate marking) shall include full compensation for furnishing all labor, materials, tools, equipment and incidentals, and for doing all the work involved in applying the green bike markings (methyl methacrylate marking), complete in place, including any necessary cat tracks, dribble lines, alignment, layout work and temporary markings, as shown on the plans, as specified in the Technical Specifications section "Methyl Methacrylate Bike Lane Treatment," and as directed by the Engineer and no additional compensation will be made thereof. Payment for thermoplastic striping and markings shall be paid as part of this bid item.

The contract unit price shall include full compensation for mobilization as described in the "Mobilization" Technical Requirement section of this project manual and no additional compensation will be allowed thereof. Full compensation for furnishing all labor, materials, tools, equipment and incidentals and for doing the work involved in the procurement, setup and maintenance of the staging area shall be considered as included as part of "Mobilization".

The contract unit price shall include full compensation for pedestrian and traffic control. Work associated with pedestrian and traffic control shall include all planning, drafting of plans, costs for labor, materials, equipment and incidentals necessary to provide construction area signs, temporary traffic control including, but not limited to, lane closures and rerouting and other measures to control and maintain traffic during daily operations. Flaggers are a requirement of pedestrian and traffic control. Full compensation for traffic control systems include all costs to maintain traffic by placing and removing temporary signs, striping, flaggers, cones, barricades, etc., as specified in the Standard Specifications of the State of California, as described in the "Traffic and Pedestrian Control" technical requirement section of this project manual, and as directed by the Engineer, and no additional compensation will be allowed thereof.

8. Sign and Pole Work

a. Method of Measurement

Sign and Pole Work will be measured per each (EA) item of work performed. Measurement will be performed in the field by the Contractor upon completion and checked by the Engineer.

b. Payment

The contract unit price paid for each (EA) item of work performed shall include full compensation for furnishing all labor, materials, tools, equipment and incidentals, and for doing all the work involved, including assembly hardware, as specified in technical specification "Traffic Signs", as shown on the plans, and as directed by the Engineer, and no additional compensation will be made thereof.

The contract unit price shall include full compensation for mobilization as described in the "Mobilization" Technical Requirement section of this project manual and no additional compensation will be allowed thereof. Full compensation for furnishing all labor, materials, tools, equipment and incidentals and for doing the work involved in the procurement, setup and maintenance of the staging area shall be considered as included as part of "Mobilization".

The contract unit price shall include full compensation for pedestrian and traffic control. Work associated with pedestrian and traffic control shall include all planning, drafting of plans, costs for labor, materials, equipment and incidentals necessary to provide construction area signs, temporary traffic control including, but not limited to, lane closures and rerouting and other measures to control and maintain traffic during daily operations. Flaggers are a requirement of pedestrian and traffic control. Full compensation for traffic control systems include all costs to maintain traffic by placing and removing temporary signs, striping, flaggers, cones, barricades, etc., as specified in the Standard Specifications of the State of California, as described in the "Traffic and Pedestrian Control" technical requirement section

of this project manual, and as directed by the Engineer, and no additional compensation will be allowed thereof.

9. OTHER ITEMS OF WORK

The cost of any item of Work called for in the Plans or Specifications, but not specifically listed under or as a specific bid item, shall be considered as included in other items of Work and no additional payment will be made.

SECTION X. CONTRACT TIME AND PERMITTED WORKING HOURS

(See also General Requirements Section III.)

A. DAYS. From the beginning of each set of Work, the Contractor shall not exceed twenty-five working days to complete that set of the Work. The charging of working days is suspended when the Work is complete and the Engineer schedules a final inspection. After the final inspection by the Engineer and the preparation of a deficiency list ("punch list"), five working days will be allowed for the correction of deficiencies, in addition to the Contract days specified.

No Work is allowed on City holidays or as described below.

B. HOLIDAYS. No Work is allowed on City holidays and as described below:

New Year's Day	January 1
Martin Luther King, Jr.	Third Monday in January
Presidents Day	Third Monday in February
Memorial Day	Last Monday in May
Independence Day	July 4
Labor Day	First Monday in September
Veteran's Day	November 11
Thanksgiving Day	Last Thursday in November
Day after Thanksgiving Day	Day after last Thursday in November
Christmas Day	December 25

When a City Holiday falls on a Saturday, the preceding Friday shall be the designated City holiday. When a City Holiday falls on a Sunday, the following Monday shall be the designated legal holiday.

No contract work shall occur after 12:00 noon on the following days:

Day before the Thanksgiving Holiday
Christmas Eve
New Year's Eve

Work by the contractor on the morning of the three above days will not be counted as a working day. Contractor shall notify the Engineer at least 2 weeks prior to planned work on the morning of the above half days.

C. HOURS. Working hours and days shall be as follows: 8:00 AM to 5:00 PM Monday through Friday, excluding City Holidays, and shall constitute "normal working hours."

Work in indicated school zones shall be limited to:

Mondays and Tuesday	9 am to 2 pm
Wednesday	9 am to 1 pm
Thursday and Friday	9 am to 2 pm

Any work in the field performed outside of these hours, including but not limited to construction, clean up, placement of traffic control devices, and mobilization/demobilization, shall be subject to removal and the Contractor fined \$5,000 per incident, unless such work has been previously authorized by the Engineer in writing.

D. Lane Closure Hours: Lane closure hours shall be the same as the working hours mentioned in Section C, Hours.

E. Order of Work. Scheduling of work in front of schools and surroundings streets shall take precedence as directed by the Engineer.

SECTION XI. PROJECT MEETINGS

A. GENERAL. In order to effectively manage the construction process, the City reserves the right to call meetings spontaneously when it believes it is necessary to effectively manage Work, prevent misunderstandings, or to disseminate information. These meetings shall include the Contractor's superintendent, the Engineer's Project Manager, and any other pertinent representatives of the Contractor or City.

There will be no pre-construction meeting.

B. REQUIRED REPORTS. Contractor shall submit the following reports to the City Engineer after the award of the contract:

- Pedestrian and Traffic Control Plan for mobile operations within the roadway

The Contractor shall not proceed with construction until these reports have been approved by the City Engineer and the Contractor has received such approval in writing (included in your Notice to Proceed letter).

SECTION XII. SIGNS AND NOTICES

A. GENERAL. Contractor shall post and maintain all notices, signs, and other safeguards required by law or ordinance. No other signs or advertisements shall be installed on the premises except as authorized by the Engineer.

B. NO PARKING SIGNS. All no parking signs shall be provided by the City of Alameda.

If necessary, “No Parking” signs shall be placed at locations that require clearance in order to perform work properly. The signs shall be placed 72 hours prior to commencement of work. For any work scheduled on a Monday, No Parking signs must be placed by the end of the day the prior Thursday. Contractor must use City provided “No Parking” signs. No parking signs must show the specific day, date and times of restricted parking, e.g. Monday, 6/20, 7:00 a.m. – 5:00 p.m. A range of dates may not be shown on No Parking signs.

No Parking signs may be necessary for limit line or crosswalk work. Signs shall be secured on barricades. The Contractor shall remove signs and barricades at the end of each day they expire. Contractor shall maintain all No Parking signs throughout the duration of work.

C. PUBLIC NOTIFICATION

1. General. Reserved.

2. Notifications to Businesses and Residents. Reserved.

SECTION XIII PROJECT CLOSEOUT – SCOPE

A. **SUBSTANTIAL COMPLETION.** When the Contractor considers the Work substantially complete, he shall submit to the Engineer a written notice that the Work (or designated portion of it) is substantially complete, together with a list of minor work to be completed or corrected. Within a reasonable time after receipt of this notice, the Engineer will make an inspection to determine the actual status of completion.

If the Engineer determines that the Work is in fact not substantially complete, he will promptly notify the Contractor in writing, giving the reasons. The Contractor shall remedy the deficiencies in the Work, and send a second written notice of substantial completion to the Engineer.

The Contractor will be allowed no longer than 30 calendar days from the date of substantial completion to request that the Engineer make his final inspection.

B. **COMPLETION.** When the Contractor considers the Work complete, he shall submit a letter to the Engineer stating that the Contract Documents have been reviewed, and that the Work has been inspected for compliance with the Contract Documents.

Contractor's submission implies that:

- the Contractor has, to the best of his knowledge, completed the Work in accordance with the Contractor Documents, including "punch list" items;
- equipment and systems have been tested in the presence of the City's representatives and are operational; and
- the Work is completed and ready for final inspection, and/or for certificate of occupancy by the Building Department.

The Engineer will make an inspection to verify the status of completion with reasonable promptness after receipt of the Contractor's letter.

If the Engineer considers that the Work is incomplete or defective, he will promptly notify the Contractor in writing, listing the incomplete or defective work. The Contractor shall then take immediate steps to remedy the stated deficiencies, and send a second written notice indicating that the Work is complete. The City will re-inspect the Work. When the Project is determined to be acceptable under the Contract Documents, the Contractor may proceed with closeout submittals.

The Contractor may be held liable for the cost of additional inspections if the Engineer is forced to make more than two field inspections to determine whether the Project is complete.

C. **CLOSEOUT SUBMITTALS.** Contractor's closeout submittals include:

- Project record documents;
- Warranties and bonds;
- Evidence of payment, release of liens and final wage certificates; and
- Certificate of insurance for products and completed operations.

Final payment and/or release of the retainer will be withheld until all closeout submittals have been received and approved by the City.

SECTION XIV. CONCURRENT ACTIVITIES

The City reserves the right to perform Work related to the Project with his own or contract forces, and to award separate contracts in connection with other portions of the Project or other Work on the site under these or similar conditions of the Contract. If the Contractor claims that delay or additional cost is involved because of such action by the City, he shall make such claim as provided elsewhere in the Contract Documents.

SECTION XV. RESERVED

SECTION XVI. RESERVED

SECTION XVII. ASSIGNMENT

The City and the Contractor each binds himself, his partners, successors, assigns and legal representatives to the other party hereto and to the partners, successors, assigns and legal representatives of such other party in respect to all covenants, agreements and obligations contained in the Contract Documents. Neither party to the Contract shall assign the Contract or sublet it as a whole without the written consent of the other, nor shall the Contractor assign any moneys due or to become due to him hereunder, without the previous written consent of the City. A consolidation or merger of Contractor or a change in ownership of twenty-five percent (25%) or more of Contractor's capital stock shall constitute an assignment by Contractor requiring the written consent of City.

SECTION XVIII. UTILITIES

A. GENERAL. Nothing in these specifications must be deemed to require the City to indicate the presence of existing service laterals or appurtenances when the presence of such utilities on the project site can be inferred from the presence of other visible facilities, such as buildings, meter and junction boxes, on or adjacent to the Site. Where underground mains distribution conduits such as water, gas, sewer, electric power, telephone, or cable television are shown on the plans, the contractor shall assume that every property parcel will be served by a service connection for each type of utility. The contractor shall adhere to all rules, regulations, and laws outlined in the Underground Service Alert (USA) North manual.

B. LOCATION. The Contractor is responsible to accurately locate, by hand digging or other suitable methods, all existing utilities such as service connections and substructures as shown on the plans and marked out by Underground Service Alert (USA), to prevent damage to such facilities and to identify any conflicts with the proposed work.

The Contractor must fill all potholes on the same day of excavation, and, if no trenching is performed within 10 working days, fully restore all potholes and any damaged surrounding areas to their original condition unless otherwise allowed by the Engineer.

The Contractor must notify the Engineer, in writing, of any conflicts between existing utilities and the proposed work in advance of the work to provide adequate time, and space for any changes to the work needed to avoid conflicts. The Contractor must perform utility location far enough in advance of the Work to provide the written notification.

The Contractor's written notification must include; date of utility location, method of utility location, type, size, and material of utility, horizontal location (to the nearest Station), depth for existing pavement or ground surface to top and bottom of utility, suspected ownership of utility, and the date on which any conflict with the utility will impact the project.

The Contractor shall coordinate with utility owners on horizontal, vertical, and depth of cover of all utilities. The Contractor shall notify the city immediately if:

1' vertical or horizontal separation as measured from outside pipe wall to outside pipe wall between underground facilities cannot be maintained.

3' or more cover over top of underground facilities cannot be maintained.

C. PROTECTION. The Contractor shall not interrupt the service function or disturb the support of any utility without the authority from the utility owner. Valves, switches, vaults, and meters shall be maintained readily accessible for emergency shutoff. The Contractor shall immediately notify the Engineer and the utility owner if any utility is disturbed or damaged.

D. RELOCATION. When the construction requires that you alter, relocate, or reconstruct a utility, temporary or permanent relocation or alteration of indicated utilities will be your responsibility for which the Contractor must make all arrangements.

SECTION XIX. PROJECT RECORD DOCUMENTS

Project records documents are the Engineer's construction documents for the project that have been modified by the Engineer to show the actual conditions of in-place construction installed by the Contractor as accurately as possible. They include:

Drawings marked where required to show changes in dimension or configuration between the original design and final construction;

Specifications marked to indicate changes of materials, products, or methods of installation;

Modifications to drawings or specifications issued during the course of construction (including addenda, change orders, or clarifications issued by the Design Professional or his consultants); Approved shop drawings and product data; and

Field test records and reports.

Prepare record documents as the work progresses. Do not conceal in-place construction until field verifications are made for record purposes.

Locate internal utilities and concealed in the construction, referenced to visible and accessible features of the structure. Note field changes of dimension and detail, and changes made by change order. Sketch details not on the original drawings.

For Specifications and Addenda, legibly mark each section to record the manufacturer, trade name, catalog number and supplier of each product and item of equipment actually installed. Note changes made by Change Order.

Submit not less than two sets of marked up plans to the City at the end of the Work, before final payment is made.

SECTION XX. LIMITATION OF DESIGN PROFESSIONAL'S RESPONSIBILITY

The Architect/Engineer will not be responsible for and will not have control or charge of construction means, methods, techniques, sequences or procedures, or for safety precautions and programs in connection with the work, and he will not be responsible for the Contractor's failure to carry out the work in accordance with the contract documents. The Architect/Engineer will not be responsible for or have control or charge over the acts or omissions of the Contractor, subcontractors, or any of their agents or employees, or any other persons performing any of the work.

SECTION XXI. SUBMITTALS

A. Material Submittals. The Contractor shall provide three sets of all material submittals to the Engineer for his review. The Engineer will review all materials submittals and either approves or returns for revisions within five (5) working days, unless he notifies the Contractor of concerns that require additional time to resolve. If the Contractor wishes additional copies of approved submittals, he shall submit these additional copies at the time of submittal for the Engineer to stamp approved.

B. Shop Drawings. Shop and erection drawing submittals, where required, shall be furnished in type and number as specified in each material specification section of the project specifications.

For its own informational purposes, submit to the Owner one copy of each set of shop drawings after they have been approved and/or reviewed by both the Contractor and the Engineer. Additional approval by the Owner is not required, unless specifically requested.

SECTION XXII. ABNORMAL WEATHER CONDITIONS

A. Description. A rain, windstorm, high water or other natural phenomenon, which might reasonably have been anticipated from historical records of the general locality, shall not be construed as abnormal. It is hereby agreed that all disruptive weather events with an average interval of ten (10) years or more between their occurrence and the occurrence of a similar event of equal or greater magnitude cannot be reasonably anticipated. For the purposes of this contract, weather information and historical data for an area in question shall be assumed to be the same as that measured at the nearest or most applicable record station of the Environmental Data Service of the National Oceanic and Atmospheric Administration (NOAA) of the U.S. Department of Commerce.

Information on measuring stations of the National Oceanic and Atmospheric Administration (NOAA) can be found in the "Climatological Data" published by NOAA. This publication may be found in public libraries or contact:

National Climatic Data Center Telephone: (828) 271-4800
Federal Building Website: www.ncdc.noaa.gov
151 Patton Avenue
Asheville, NC 28801-5001

B. Delays Due to Abnormal Weather. Weather days will be recorded by the Contractor and forwarded to the Engineer within five (5) days of occurrence.

Weather day delays are calculated by subtracting the 10-year average disruptive weather, as described above, from the actual encountered/report days. Contractor's schedule should include normal weather days.

There shall be no increase in the contract sum or remuneration of any kind by Owner to Contractor for extensions due to abnormal weather day delays.

IMPORTANT INSTRUCTIONS

1. Any erasure or interlineation may invalidate bid.
2. If corporation is bidder, affix seal of corporation.
3. If bidder is:
 - (a) An individual doing business under his own name, sign his own name only.
 - (b) An individual using a firm name, sign: Example, "John Doe, an individual doing business as Blank Company."
 - (c) A co-partnership, sign: Example, "Blank Company, by John Doe, President" (or other title).
4. If a firm or co-partnership, give the names of all individual co-partners composing the firm. If a corporation, state legal name of corporation; also name of president, secretary and treasurer thereof.
5. If a bid is sent by mail, write the word "Proposal" plainly on the envelope.

Proposal for FY 2020-23 ON-CALL STRIPING AND
SIGNAGE CONTRACT

BIDDER'S PROPOSAL

Bid Schedule for FY 2020-23 ON-CALL STRIPING AND SIGNAGE CONTRACT

Proposal to the City Council of the City of Alameda:

The undersigned declares that he has carefully examined the location of the proposed work and the Plans and Specifications referred to herein, and hereby proposes to furnish all labor, materials, machinery, tools and equipment required to perform the work, and to do all the said work, in accordance with said Plans, Specifications and Special Provisions for the unit prices set forth in the following bid schedule:

Notes:

1. Blank white cells in the "UNIT COST" columns are to be filled out by the Contractor.
2. For standard "Detail" striping, all Unit Costs shall include the labor and materials for reflective markers, when appropriate.
3. Cost shall include all assembly hardware necessary to complete the work.

Bid Item #	Item Description	Unit	Unit Cost¹
1	Removal of Striping, Markings, and Reflectors		
1.01	Pavement Marking	SF

BIDDER'S BOND

We,

as Principal, and as Surety are bound unto the _____, hereafter referred to as "obligee", in the penal sum of ten percent (10%) of the total amount of the bid of the Principal submitted to the Obligee for the work described below, for the payment of which sum we bind ourselves, jointly, and severally, **THE CONDITION OF THIS OBLIGATION IS SUCH, THAT:**

WHEREAS, the Principal is submitted to the Obligee, for

(Copy here the exact description of work, including locations as it appears on the proposal)

for which bids are to be opened per Section 1 Proposal and Contract Requirements, Paragraph E, Presenting and Marking of Bid.

NOW, THEREFORE, if the Principal is awarded the contract and, within the time and manner required under the specifications, after the prescribed forms are presented to Contractor for signature, enters into a written contract, in the prescribed form, in accordance with the bid, and files two bonds with Obligee, one to guarantee faithful performance of the contract and the other to guarantee payment for labor and materials as provided by law, then this obligation shall be null and void; otherwise, it shall remain in full force.

In the event suit is brought upon this bond by the Obligee and judgement is recovered, the Surety shall pay all cost incurred by the Obligee in such suite, including a reasonable attorney's fee to be fixed by the court.

The surety; for value received, hereby stipulates and agrees that the obligations of said Surety and its Bond shall be in no way impaired or affected by any extension of the time within which the OWNER may accept such BID; and said Surety does hereby waive notice of any such extension.

CONTRACTOR AGREEMENT

THIS AGREEMENT (“**Agreement**”) is entered into this ____ day of _____ 2020, by and between the CITY OF ALAMEDA, a municipal corporation (the “**City**”), and COMPANY, a (California corporation, partnership, sole proprietor, individual) whose address is Address, (“**Contractor**”), in reference to the following:

RECITALS:

- A. The City of Alameda is a municipal corporation duly organized and validly existing under the laws of the State of California with the power to carry on its business as it is now being conducted under the statutes of the State of California and the Charter of the City.
- B. The City is in need of the following services: FY 2020-23 ON-CALL STRIPING AND SIGNAGE CONTRACT. City staff issued an RFP on Thursday, July 23, 2020, after a submittal period of twenty eight days received NUMBER of timely submitted bids, and the bids were opened on Wednesday, August 19, 2020. Staff reviewed the bids and selected the lowest responsive and responsible bidder.
- C. Contractor possesses the skill, experience, ability, background, certification and knowledge to provide the services described in this Agreement on the terms and conditions described herein.
- D. City and Contractor desire to enter into an agreement for Contract PW 02-20-08, FY 2020-23 ON-CALL STRIPING AND SIGNAGE CONTRACT, upon the terms and conditions herein.

NOW, THEREFORE, it is mutually agreed by and between the undersigned parties as follows:

1. TERM:

The term of this Agreement shall commence on the ____ day of _____ 2020, and shall terminate on the ____ day of _____ 2023, unless terminated earlier as set forth herein.

This Agreement may be mutually extended on a year-by-year basis, for up to two (2) additional years, at the sole discretion of the Public Works Director, based, at a minimum, upon satisfactory performance of all aspects of this Agreement. The Public Works Director may submit written notice that the Agreement is to be extended at the same terms and compensation as the existing Agreement.

2. SERVICES TO BE PERFORMED:

Contractor agrees, at its own cost and expense, to furnish all labor, tools, equipment, materials, except as otherwise specified, and to do all work strictly in accordance with Specifications, Special Provisions and Plans, which Specifications, Special Provisions and Plans are hereby referred to and expressly made a part hereof with the same force and effect as if the same were fully incorporated herein. The Contractor acknowledges that the work plan included in Exhibit “A” is tentative and does not commit the City to request Contractor to perform all tasks included therein.

3. COMPENSATION TO CONTRACTOR:

Contractor shall be compensated for services performed pursuant to this Agreement in the amount and manner set forth in Contractor's bid, which is attached hereto as Exhibit "A" and incorporated herein by this reference. Payment will be made in the same manner that claims of a like character are paid by the City, with checks drawn on the treasury of said City from Fund____ or CIP _____.

Payment will be made by the City in the following manner: On the first day of each month, Contractor shall submit a written estimate of the total amount of work done the previous month. However, the City reserves the right to adjust budget within and between tasks. Pricing and accounting of charges are to be according to the bid packet pricing, unless mutually agreed to in writing.

Payment shall be made for 95% of the value of the work completed as determined by the City. The City shall retain 5% of the value of the work as partial security for the completion of the work by Contractor. Retained amounts shall be paid to Contractor within sixty days of acceptance by the City of the project. Payment shall not be construed as acceptance of defective work. No interest will be paid to Contractor on retained funds.

Total compensation for work is \$150,000 per year, \$450,000 for the first three years, and \$150,000 per yearly extension.

Prompt Payment Of Withheld Funds To Subcontractors: The City shall hold retainage from the prime contractor and shall make prompt and regular incremental acceptances of portions, as determined by the City of the contract work and pay retainage to the prime contractor based on these acceptances. The prime contractor or subcontractor shall return all monies withheld in retention from all subcontractors within 30 days after receiving payment for work satisfactorily completed and accepted including incremental acceptances of portions of the contract work by the City. Any delay or postponement of payment may take place only for good cause and with the City's prior written approval. Any violation of these provisions shall subject the violating prime contractor to the penalties, sanctions, and other remedies specified in Section 7108.5 of the California Business Professions Code. This requirement shall not be construed to limit or impair any contractual, administrative, or judicial remedies otherwise, available to the prime contractor or subcontractor in the event of a dispute involving late payment, or nonpayment by the contractor, or deficient subcontractor's performance, or noncompliance by a subcontractor, including but not limited to remedies under California Public Contract Code Section 9204. This clause applies to both DBE and non-DBE subcontractors.

4. TIME IS OF THE ESSENCE:

Contractor and the City agree that time is of the essence regarding the performance of this Agreement.

It is agreed by the parties to the Agreement that in case all the work called for under the Agreement is not completed before or upon the expiration of the time limit as set forth in paragraph 1 above, damage will be sustained by the City, and that it is and will be impracticable to determine the actual damage which the City will sustain in the event of and by reason of such delay. It is

therefore agreed that the Contractor will pay to the City the sum of FIVE HUNDRED DOLLARS (\$500.00) per day for each and every day's delay beyond the time prescribed to complete the work; and the Contractor agrees to pay such liquidated damages as herein provided, and in case the same are not paid, agrees that the City may deduct the amount thereof from any money due or that may become due the Contractor under the Agreement.

It is further agreed that in case the work called for under the Agreement is not finished and completed in all parts and requirements within the time specified, the City shall have the right to extend the time for completion or not, as may seem best to serve the interest of the City; and if the City decides to extend the time limit for the completion of the Agreement, it shall further have the right to charge the Contractor, his or her heirs, assigns, or sureties, and to deduct from the final payment for the work, all or any part, as it may deem proper, of the actual costs and overhead expenses which are directly chargeable to the Agreement, and which accrue during the period of such extensions.

The Contractor shall not be assessed with liquidated damages during any delay in the completion of the work caused by an act of God or of the public enemy, acts of the City, fire, flood, epidemic, quarantine restriction, strikes, freight embargoes, and unusually severe weather or delays of subcontractors due to such causes; provided that the Contractor shall, within one (1) day from the beginning of such delay, notify the City in writing of the causes of delay. The City shall ascertain the facts in good faith and the extent of the delay, and its findings of the facts thereon shall be final and conclusive.

5. STANDARD OF CARE:

Contractor agrees to perform all services hereunder in a manner commensurate with the prevailing standards of like professionals in the San Francisco Bay Area and agrees that all services shall be performed by qualified and experienced personnel who are not employed by the City nor have any contractual relationship with City.

6. INDEPENDENT PARTIES:

Contractor hereby declares that it is engaged as an independent business and it agrees to perform its services as an independent contractor. The manner and means of conducting the work are under the control of Contractor, except to the extent they are limited by statute, rule or regulation and the express terms of this Agreement. No civil service status or other right of employment will be acquired by virtue of Contractor's services. None of the benefits provided by City to its employees, including but not limited to unemployment insurance, workers' compensation plans, vacation and sick leave are available from City to Contractor, its employees or agents. Deductions shall not be made for any state or federal taxes, FICA payments, PERS payments, or other purposes normally associated with an employer-employee relationship from any fees due Contractor. Payments of the above items, if required, are the responsibility of Contractor.

7. IMMIGRATION REFORM AND CONTROL ACT (IRCA):

Contractor assumes any and all responsibility for verifying the identity and employment authorization of all of its employees performing work hereunder, pursuant to all applicable IRCA or other federal, or state rules and regulations. Contractor shall indemnify, defend, and hold City

harmless from and against any loss, damage, liability, costs or expenses arising from any noncompliance of this provision by Contractor.

8. NON-DISCRIMINATION:

Consistent with City's policy that harassment and discrimination are unacceptable employer/employee conduct, Contractor agrees that harassment or discrimination directed toward a job applicant, a City employee, or a citizen by Contractor or Contractor's employee on the basis of race, religious creed, color, national origin, ancestry, handicap, disability, marital status, pregnancy, sex, age, or sexual orientation will not be tolerated. Contractor agrees that any and all violations of this provision shall constitute a material breach of this Agreement.

9. HOLD HARMLESS:

Contractor shall indemnify, defend, and hold harmless the City, its City Council, boards, commissions, officials, employees, and volunteers ("Indemnitees") from and against any and all loss, damages, liability, claims, suits, costs and expenses whatsoever, including reasonable attorneys' fees ("Claims"), arising from or in any manner connected to Contractor's negligent act or omission, whether alleged or actual, regarding performance of services or work conducted or performed pursuant to this Agreement. If Claims are filed against Indemnitees which allege negligence on behalf of the Contractor, Contractor shall have no right of reimbursement against Indemnitees for the costs of defense even if negligence is not found on the part of Contractor. However, Contractor shall not be obligated to indemnify Indemnitees from Claims arising from the sole negligence or willful misconduct of Indemnitees.

10. INSURANCE:

On or before the commencement of the terms of this Agreement, Contractor shall furnish the City's Risk Manager with certificates showing the type, amount, class of operations covered, effective dates and dates of expiration of insurance coverage in compliance with paragraphs 10A, B, C and D. Such certificates, which do not limit Contractor's indemnification, shall also contain substantially the following statement: "Should any of the above insurance covered by this certificate be canceled or coverage reduced before the expiration date thereof, the insurer affording coverage shall provide fourteen (14) days' advance written notice to the City of Alameda, "Attention: Risk Manager."

It is agreed that Contractor shall maintain in force at all times during the performance of this Agreement all appropriate coverage of insurance required by this Agreement with an insurance company that is acceptable to the City Risk Manager and licensed to do insurance business in the State of California. Endorsements naming the City, its City Council, boards, commissions, officials, employees, and volunteers as additional insured shall be submitted with the insurance certificates.

A. COVERAGE:

Contractor shall maintain the following insurance coverage:

- (1) Workers' Compensation:
Statutory coverage as required by the State of California.

(2) Liability:

Commercial general liability coverage in the following minimum limits:

Bodily Injury: \$1,000,000 each occurrence
 \$2,000,000 aggregate - all other

Property Damage: \$1,000,000 each occurrence
 \$2,000,000 aggregate

If submitted, combined single limit policy with aggregate limits in the amounts of \$2,000,000 will be considered equivalent to the required minimum limits shown above.

(3) Automotive:

Comprehensive automobile liability coverage (any auto) in the following minimum limits:

Bodily injury: \$1,000,000 each occurrence
Property Damage: \$1,000,000 each occurrence

or

Combined Single Limit: \$2,000,000 each occurrence

(4) Pollution Prevention:

Legal liability required for hazardous materials excavation in the amount of \$2,000,000 each occurrence.

B. SUBROGATION WAIVER:

Contractor agrees that in the event of loss due to any of the perils for which it has agreed to provide comprehensive general and automotive liability insurance, Contractor shall look solely to its insurance for recovery. Contractor hereby grants to the City, on behalf of any insurer providing comprehensive general and automotive liability insurance to either Contractor or City with respect to the services of Contractor herein, a waiver of any right to subrogation which any such insurer of said Contractor may acquire against City by virtue of the payment of any loss under such insurance.

C. FAILURE TO SECURE:

If Contractor at any time during the term hereof should fail to secure or maintain the foregoing insurance, the City shall be permitted to obtain such insurance in the Contractor's name or as an agent of the Contractor and shall be compensated by the Contractor for the costs of the insurance premiums at the maximum rate permitted by law and computed from the date written notice is received that the premiums have not been paid.

D. ADDITIONAL INSURED:

City, its City Council, boards, commissions, officials, employees, and volunteers shall be named as an additional insured under all insurance coverages, except worker's compensation insurance. The naming of an additional insured shall not affect any recovery to which such additional insured would be entitled under this policy if not named as such additional insured. An additional insured named herein shall not be held liable for any premium, deductible portion of any loss, or expense of any nature on this policy or any extension thereof. Any other insurance held by an additional insured shall not be required to contribute anything toward any loss or expense covered by the insurance provided by this policy.

E. SUFFICIENCY OF INSURANCE:

Contractor shall furnish the following bonds from a bonding company acceptable to the City Risk Manager. Faithful Performance Bond and Labor and Material Bond are only required for work over \$25,000. Therefore, those estimates that are under \$25,000 will not need to budget for the bond premiums and those estimates over \$25,000 will need to be sure to budget for the bond premiums.

The insurance limits required by City are not represented as being sufficient to protect Contractor. Contractor is advised to consult Contractor's insurance broker to determine adequate coverage for Contractor.

11. BONDS:

Contractor shall furnish the following bonds from a bonding company acceptable to the City Risk Manager:

A. Faithful Performance:

A bond in the amount of 100% of the total contract price guaranteeing the faithful performance of this contract, and

B. Labor and Materials:

A bond for labor and materials in the amount of 100% of the total contract price.

12. PROHIBITION AGAINST TRANSFERS:

Contractor shall not assign, sublease, hypothecate, or transfer this Agreement, or any interest therein, directly or indirectly, by operation of law or otherwise, without prior written consent of the City Manager. Any attempt to do so without said consent shall be null and void, and any assignee, sublessee, hypothecate or transferee shall acquire no right or interest by reason of such attempted assignment, hypothecation or transfer. However, Contractor's claims for money from the City under this Agreement may be assigned to a bank, trust company or other financial institution without prior written consent. Written notice of such assignment shall be promptly furnished to the City by Contractor.

The sale, assignment, transfer or other disposition of any of the issued and outstanding capital stock of Contractor, or of the interest of any general partner or joint venturer or syndicate member or cotenant, if Contractor is a partnership or joint venture or syndicate or cotenancy, which shall

result in changing the control of Contractor, shall be construed as an assignment of this Agreement. Control means fifty percent (50%) or more of the voting power of the corporation.

13. SUBCONTRACTOR APPROVAL:

Unless prior written consent from the City is obtained, only those people and subcontractors whose names are listed in Contractor's bid shall be used in the performance of this Agreement.

Requests for additional subcontracting shall be submitted in writing, describing the scope of work to be subcontracted and the name of the proposed subcontractor. Such request shall set forth the total price or hourly rates used in preparing estimated costs for the subcontractor's services.

Approval of the subcontractor may, at the option of the City, be issued in the form of a Work Order.

In the event that Contractor employs subcontractors, such subcontractors shall be required to furnish proof of workers' compensation insurance and shall also be required to carry general and automobile liability insurance in reasonable conformity to the insurance carried by Contractor. In addition, any work or services subcontracted hereunder shall be subject to each provision of this Agreement.

14. PERMITS AND LICENSES:

Contractor, at its sole expense, shall obtain and maintain during the term of this Agreement, all appropriate permits, certificates and licenses, including a City Business License that may be required in connection with the performance of services hereunder.

15. REPORTS:

Each and every report, draft, work product, map, record and other document reproduced, prepared or caused to be prepared by Contractor pursuant to or in connection with this Agreement shall be the exclusive property of the City.

No report, information nor other data given to or prepared or assembled by Contractor pursuant to this Agreement shall be made available to any individual or organization by Contractor without prior approval by the City.

Contractor shall, at such time and in such form as the City may require, furnish reports concerning the status of services required under this Agreement.

16. RECORDS:

Contractor shall maintain complete and accurate records with respect to sales, costs, expenses, receipts and other such information required by the City that relate to the performance of services under this Agreement.

Contractor shall maintain adequate records of services provided in sufficient detail to permit an evaluation of services. All such records shall be maintained in accordance with generally accepted accounting principles and shall be clearly identified and readily accessible. Contractor shall provide

free access to such books and records to the representatives of the City or its designees at all proper times, and gives the City the right to examine and audit same, and to make transcripts therefrom as necessary, and to allow inspection of all work, data, documents, proceedings and activities related to this Agreement. Such records, together with supporting documents, shall be kept separate from other documents and records and shall be maintained for a period of three (3) years after receipt of final payment.

If supplemental examination or audit of the records is necessary due to concerns raised by the City's preliminary examination or audit of records, and the City's supplemental examination or audit of the records discloses a failure to adhere to appropriate internal financial controls, or other breach of contract or failure to act in good faith, then Contractor shall reimburse the City for all reasonable costs and expenses associated with the supplemental examination or audit.

17. NOTICES:

All notices, demands, requests or approvals to be given under this Agreement shall be given in writing and conclusively shall be deemed served when delivered personally or on the second business day after the deposit thereof in the United States Mail, postage prepaid, registered or certified, addressed as hereinafter provided.

All notices, demands, requests, or approvals from Contractor to the City shall be addressed to the City at:

City of Alameda
Public Works Department
950 West Mall Square, Room 110
Alameda, CA 94501
ATTENTION: Alan Ta, Assistant Engineer
Ph: (510) 747-7946 / Fax: (510) 769-6030
Email: ata@alamedaca.gov

All notices, demands, requests, or approvals from the City to Contractor shall be addressed to Contractor at:

[Contractor Name]
[Department]
[Address]
Alameda, CA 94501
ATTENTION; [Title]
Ph: (510) xxx-xxxx / Fax: (510) xxx-xxxx
Email:

18. SAFETY:

The Contractor will be solely and completely responsible for conditions of all vehicles owned or operated by Contractor, including the safety of all persons and property during performance of the services and tasks under this Agreement. This requirement will apply continuously and not be limited to normal working hours. In addition, Contractor will comply with all safety provisions in

conformance with U.S. Department of Labor Occupational Safety and Health Act, any equivalent state law, and all other applicable federal, state, county and local laws, ordinances, codes, and any regulations that may be detailed in other parts of the Agreement. Where any of these are in conflict, the more stringent requirements will be followed. The Contractor's failure to thoroughly familiarize itself with the aforementioned safety provisions will not relieve it from compliance with the obligations and penalties set forth herein.

The Contractor will immediately notify the City's Risk Manager within 24 hours of any incident of death, serious personal injury or substantial property damage that occurs in connection with the performance of this Agreement. The Contractor will promptly submit to the City a written report of all incidents that occur in connection with this Agreement. This report must include the following information: (i) name and address of injured or deceased person(s); (ii) name and address of Contractor's employee(s) involved in the incident; (iii) name and address of Contractor's liability insurance carrier; (iv) a detailed description of the incident; and (v) a police report.

19. LAWS TO BE OBSERVED:

Contractor shall comply with all applicable laws, state, federal, and all ordinances, rules and regulations enacted or issued by City. In addition, the Contractor shall keep himself fully informed of all existing and future state and federal laws and all municipal ordinances and regulations of the City of Alameda which in any manner affect those engaged or employed in the work, or the materials used in the work, or which in any way affect the conduct of the work, and of all such orders and decrees of bodies or tribunals having any jurisdiction or authority over the same.

20. DEPARTMENT OF INDUSTRIAL RELATIONS COMPLIANCE AND PREVAILING WAGE REQUIREMENTS ON PUBLIC WORKS PROJECTS:

Effective January 1, 2015, no Contractor or Subcontractor may be listed on a bid proposal for a public works project (submitted after March 1, 2015) unless registered with the Department of Industrial Relations pursuant to Labor Code Section 1725.5 (with the limited exceptions from this requirement for bid purposed only under Labor code Section 1771.1(a)). Register at <https://efiling.dir.ca.gov/PWCR>

No Contractor or Subcontractor may be awarded a contract for public work on a public works project (awarded on or after April 1, 2015) unless registered with the Department of Industrial Relations pursuant to Labor Code Section 1725.5.

This project is subject to compliance monitoring and enforcement by the Department of Industrial Relations.

The Prime Contractor is required to post job site notices prescribed by regulations. See 8 Calif. Code Regulation §16451(d).

Effective April 1, 2015, All Contractors and Subcontractors must furnish electronic certified payroll records directly to the Labor Commissioner at: <https://apps.dir.ca.gov/ecpr/das/altlogin>

21. HOURS OF LABOR:

As provided in Article 3 (commencing at § 1810), Chapter 1, Part 7, Division 2 of the Labor Code, eight (8) hours of labor shall constitute a legal day's work. The time of service of any worker employed at any time by the Contractor or by any Subcontractor on any subcontract under this Contract, upon the work or upon any part of the work contemplated by this Contract, is limited and restricted to eight (8) hours during any one calendar day and forty (40) hours during any one calendar week, except as hereinafter provided. Notwithstanding the provision hereinabove set forth, work performed by employees of Contractor in excess of eight (8) hours per day and forty (40) hours during any one week shall be permitted upon this public work provided that the employees' compensation for all hours worked in excess of eight (8) hours per day at not less than one and one-half (1-1/2) times the basic rate of pay.

The Contractor shall pay to the City a penalty of Twenty-five Dollars (\$25.00) for each worker employed in the execution of this Contract by the Contractor, or by any Subcontractor, for each calendar day during which such worker is required or permitted to work more than eight (8) hours in any calendar day and forty (40) hours in any one (1) calendar week, in violation of the provisions of Article 3 (commencing at § 1810), Chapter 1, Part 7, Division 2 of the Labor Code, unless compensation for the workers so employed by Contractor is not less than one and one-half (1-1/2) times the basic rate of pay for all hours worked in excess of eight (8) hours per day.

Holiday and overtime work, when permitted by law, shall be paid for at a rate of at least one and one-half (1½) times the above specified rate of *per diem* wages, unless otherwise specified. Holidays shall be defined in the Collective Bargaining Contract applicable to each particular craft, classification, or type of worker employed.

22. APPRENTICES:

Attention is directed to the provisions in sections 1777.5 and 1777.6 of the Labor Code concerning the employment of apprentices by the Contractor or any subcontractor under him on contracts greater than \$30,000 or 20 working days. The Contractor and any subcontractor under him shall comply with the requirements of Sections 1777.5 and 1777.6 in the employment of apprentices.

Section 1777.5 requires the Contractor or subcontractor employing workers in any apprenticeable occupation to apply to the joint apprenticeship committee nearest the site of the public works project, and which administers the apprenticeship program in that trade, for a certificate of approval, if they have not previously applied and are covered by the local apprenticeship standards.

The Contractor is required to make contributions to funds established for the administration of apprenticeship programs if: (1) the Contractor employs registered apprentices or journeymen in any apprenticeable trade on such contracts and if other contractors on the public works site are making such contributions; or (2) if the Contractor is not a signatory to an apprenticeship fund and if the funds administrator is unable to accept Contractor's required contribution. The Contractor or subcontractor shall pay a like amount to the California Apprenticeship Council.

Information relative to apprenticeship standards, wage schedules, and other requirements may be obtained from the Director of Industrial Relations, ex-officio the Administrator of Apprenticeship, San Francisco, California, or from the Division of Apprenticeship Standards and its branch offices.

23. LABOR DISCRIMINATION:

No discrimination shall be made in the employment of persons upon public works because of the race, color, sex, religion, age, national origin, sexual orientation, or physical disability of such persons and every Contractor for public works violating this section is subject to all the penalties imposed for a violation of the provisions of the Labor Code, and, in particular, Section 1735.

24. REGISTRATION OF CONTRACTORS:

Before submitting bids, contractors shall be licensed in accordance with the provisions of Chapter 9, Division 3, of the Business and Professional Code of the State of California.

25. URBAN RUNOFF MANAGEMENT:

The Contractor shall avoid creating excess dust when breaking asphalt or concrete and during excavation and grading. If water is used for dust control, contractor shall use as little as necessary. Contractor shall take all steps necessary to keep wash water out of the streets, gutters and storm drains.

The Contractor shall develop and implement erosion and sediment control to prevent pollution of storm drains. Such control includes but is not limited to:

- a. Use storm drain inlet protection devices such as sand bag barriers, filter fabric fences, block and gravel filters. (Block storm drain inlets prior to the start of the rainy season (October 15), on site de-watering activities and saw-cutting activities; shovel or vacuum saw-cut slurry and remove from the site).
- b. Cover exposed piles of soil or construction material with plastic sheeting. All construction materials must be stored in containers.
- c. Sweep and remove all materials from paved surfaces that drain to streets, gutters and storm drains prior to rain as well as at the end of the each work day. At the completion of the project, the street shall be washed and the wash water shall be collected and disposed of offsite in an appropriate location.
- d. After breaking old pavement, Contractor shall remove all debris to avoid contact with rainfall or runoff.
- e. Contractor shall maintain a clean work area by removing trash, litter, and debris at the end of each workday. Contractor shall also clean up any leaks, drips, and other spills as they occur.

The objective is to ensure that the City and County of Alameda County-Wide Clean Water Program is adequately enforced. These controls should be implemented prior to the start of construction, up-graded as required, maintained during construction phases to provide adequate protection, and removed at the end of construction.

These recommendations are intended to be used in conjunction with the State's Best Management Practices Municipal and Construction Handbooks, local program guidance materials from municipalities, Section 7.1.01 of the Standard Specifications and any other appropriate documents on storm water quality controls for construction.

Failure to comply with this program will result in the issuance of noncompliance notices, citations, project stop orders or fines. The fine for noncompliance of the above program is two hundred and fifty dollars (\$250.00) per occurrence per day. The State under the Federal Clean Water Act can also impose a fine on the contractor, pursuant to Cal. Water Code §13385.

26. COMPLIANCE WITH MARSH CRUST ORDINANCE:

Contractor shall perform all excavation work in compliance with the City's Marsh Crust Ordinance as set forth at Section 13-56 of the Municipal Code. Prior to performing any excavation work, Contractor shall verify with the Building Official whether the excavation work is subject to the Marsh Crust Ordinance. Contractor shall apply for and obtain permits from Building Services on projects deemed to be subject to the Marsh Crust Ordinance.

27. COMPLIANCE WITH THE CITY'S INTEGRATED PEST MANAGEMENT POLICY:

The Contractor shall follow the requirements of the City's Integrated Pest Management (IPM) Policy to ensure the City is in compliance with its Municipal Regional Stormwater NPDES Permit, Order No. R2-2009-0074, issued by the San Francisco Bay Regional Water Quality Control Board.

- ☐ Contractor shall use the most current IPM technologies available to ensure the long-term prevention or suppression of pest problems and to minimize negative impacts on the environment, non-target organisms, and human health for the control or management of pests in and around City buildings and facilities, parks and golf courses, urban landscape areas, rights-of-way, and other City properties.
- ☐ Contractor will consider the City IPM Policy's hierarchy of options or alternatives listed below, in the following order before recommending the use of or applying any pesticide on City property: (1)
 - a. No controls (e.g. tolerating the pest infestation, use of resistant plant varieties or allowing normal life cycle of weeds);
 - b. Physical or mechanical controls (e.g. hand labor, mowing, exclusion);
 - c. Cultural controls (e.g. mulching, disking, alternative vegetation) and good housekeeping (e.g. cleaning desk area);
 - d. Biological controls (e.g., natural enemies or predators);
 - e. Reduced-risk chemical controls (e.g., soaps or oils);
 - f. Other chemical controls.
- ☐ Prior to applying chemical controls the contractor shall complete a checklist for the City's pre-approval that explains why a chemical control is necessary. For annual contracts that

require regular application of chemical controls the contractor shall submit one checklist prior to the initiation of the project demonstrating that the hierarchy has been reviewed and no other options exist. (Attached as Exhibit C). Additionally, the Contractor shall provide documentation to the City's project manager of the implementation of the IPM techniques hierarchy described in the City's IPM Policy.

- ☐ Contractor shall avoid the use of the following pesticides that threaten water quality, human health and the environment:
 - a. Acute Toxicity Category I chemicals as identified by the Environmental Protection Agency (EPA)
 - b. Organophosphate pesticides (e.g., those containing Diazinon, chlorpyrifos or malathion)
 - c. Pyrethroids (bifenthrin, cyfluthrin, beta-cyfluthrin, cypermethrin, deltamethrin, esfenvalerate, lambda-cyhalothrin, permethrin, and tralomethrin), carbamates (e.g., carbaryl), and fipronil
 - d. Copper-based pesticides unless their use is judicious, other approaches and techniques have been considered, and the threat of impact to water quality is prevented.
- ☐ Contractor shall sign the Contractor Verification Form (attached as Exhibit B) indicating the intent to implement the City's IPM Policy, and return a signed copy to the City's project manager.
- ☐ Contractor shall provide to the City's project manager an annual Report of all pesticide usage in support of City operations including pesticide name, active ingredient(s), target pest(s), the total amounts used and the reasons for any increase in use of any pesticide.
- ☐ Contractor shall provide a copy of any current IPM certifications(s) to the City's project manager prior to initiation of the service work.

A copy of the City's IPM Policy may be obtained from the City's project manager and is also on file with the City Clerk.

If this agreement pertains to the use of any items listed above, the Contractor will need to fill out and send in the Contractor Verification Form and Contractor Check List. ADD EXHIBIT B IF PEST CONTROL.

28. PURCHASES OF MINED MATERIALS REQUIREMENT:

Contractor shall ensure that all purchases of mined materials such as construction aggregate, sand and gravel, crushed stone, road base, fill materials, and any other mineral materials must originate from a surface mining operation identified on the AB3098 List per the Surface Mining and Reclamation Act of 1975 (SMARA).

Within five days of award of contract, Contractor shall submit a report to City which lists the intended suppliers for the above materials and demonstrates that the suppliers are in compliance with the SMARA requirements. The AB3098 List is maintained by the Department of Conservation's

Office of Mine Reclamation (OMR) and can be viewed at: www.conservation.ca.gov/OMR/ab_3098_list/index.htm. Note that the list changes periodically and should be reviewed accordingly.

29. TERMINATION:

In the event Contractor fails or refuses to perform any of the provisions hereof at the time and in the manner required hereunder, Contractor shall be deemed in default in the performance of this Agreement. If such default is not cured within a period of two (2) business days after receipt by Contractor from the City of written notice of default, specifying the nature of such default and the steps necessary to cure such default, the City may terminate the Agreement forthwith by giving to the Contractor written notice thereof.

The City shall have the option, at its sole discretion and without cause, of terminating this Agreement by giving seven (7) days' prior written notice to Contractor as provided herein. Upon termination of this Agreement, each party shall pay to the other party that portion of compensation specified in this Agreement that is earned and unpaid prior to the effective date of termination.

30. ATTORNEY'S FEES:

In the event of the bringing of any action or suit by a party hereto against the other party by reason of any breach of any covenants, conditions, obligation or provision arising out of this Agreement, the prevailing party shall be entitled to recover from the non-prevailing party all of its costs and expenses of the action or suit, including reasonable attorneys' fees, experts' fees, all court costs and other costs of action incurred by the prevailing party in connection with the prosecution or defense of such action and enforcing or establishing its rights hereunder (whether or not such action is prosecuted to a judgment). For the purposes of this Agreement, reasonable fees of attorneys of the Alameda City Attorney shall be based on the fees regularly charged by private attorneys with the equivalent number of years of experience in the subject matter area of the law for which the Alameda City Attorney's services were rendered who practice in Alameda County in law firms with approximately the same number of attorneys as employed by the Alameda City Attorney's Office.

31. CONFLICT OF LAW:

This Agreement shall be interpreted under, and enforced by the laws of the State of California excepting any choice of law rules which may direct the application of laws of another jurisdiction. The Agreement and obligations of the parties are subject to all valid laws, orders, rules, and regulations of the authorities having jurisdiction over this Agreement (or the successors of those authorities.) Any suits brought pursuant to this Agreement shall be filed with the courts of the County of Alameda, State of California.

32. ADVERTISEMENT:

Contractor shall not post, exhibit, display or allow to be posted, exhibited, displayed any signs, advertising, show bills, lithographs, posters or cards of any kind pertaining to the services performed under this Agreement unless prior written approval has been secured from the City to do otherwise.

33. WAIVER:

A waiver by City of any breach of any term, covenant, or condition contained herein, shall not be deemed to be a waiver of any subsequent breach of the same or any other term, covenant, or condition contained herein, whether of the same or a different character.

34. INTEGRATED CONTRACT:

This Agreement represents the full and complete understanding of every kind or nature whatsoever between the parties hereto, and all preliminary negotiations and agreements of whatsoever kind or nature are merged herein. No verbal agreement or implied covenant shall be held to vary the provisions hereof. Any modification of this Agreement will be effective only by written execution signed by both the City and Contractor

35. INSERTED PROVISIONS:

Each provision and clause required by law to be inserted into the Agreement shall be deemed to be enacted herein, and the Agreement shall be read and enforced as though each were included herein. If through mistake or otherwise, any such provision is not inserted or is not correctly inserted, the Agreement shall be amended to make such insertion on application by either party.

36. CAPTIONS:

The captions in this Agreement are for convenience only, are not a part of the Agreement and in no way affect, limit or amplify the terms or provisions of this Agreement.

Signatures on next page

IN WITNESS WHEREOF, the parties have caused the Agreement to be executed on the day and year first above written.

PERFORMANCE BOND

KNOW ALL MEN BY THESE PRESENTS: that

(Name of Contractor)

(Address of Contractor)

a _____, hereinafter called Principal, and
(Corporation, Partnership, or Individual)

(Name of Surety)

(Address of Surety)

hereinafter called Surety, are held and firmly bound unto

(Name of Owner)

(Address of Owner)

hereinafter called OWNER, in the penal sum of _____ Dollars. (\$ _____)

in lawful money of the United States, for the payment of which sum well and truly to be made, we bind ourselves, successors, and assigns, jointly and severally, firmly by these presents.

THE CONDITION OF THIS OBLIGATION is such that whereas, the Principal entered into a certain contract with the OWNER, dated the _____ day of _____, 2020, a copy of which is hereto attached and made a part hereof for the construction of:

NOW, THEREFORE, if the Principal shall well, truly and faithfully perform its duties, all the undertakings, covenants, terms, conditions, and agreements of said contract during the original term thereof, and any extensions thereof which may be granted by the OWNER, with or without notice to the Surety and during the one year guaranty period, and if he shall satisfy all claims and demands incurred under such contract, and shall fully indemnify and save harmless the OWNER from all costs and damages which it may suffer by reason of failure to do so, and shall reimburse and repay the OWNER all outlay and expense which the OWNER may incur in making good any default, then this obligation shall be void; otherwise to remain in full force and effect.

PERFORMANCE BOND FORM

PROVIDED, FURTHER, that the said surety, for value received hereby stipulates and agrees that no change, extension of time, alteration or addition to the terms of the contract or to WORK to be performed thereunder or the SPECIFICATIONS accompanying the same shall in any wise affect its obligation on this BOND, and it does hereby waive notice of any such change, extension of time, alteration or addition to the terms of the contract or to the WORK or to the SPECIFICATIONS.

PROVIDED, FURTHER, that no final settlement between the OWNER and the CONTRACTOR shall abridge the right of any beneficiary hereunder, whose claim may be unsatisfied.

IN WITNESS WHEREOF, this instrument is executed on _____ counterparts, each one
(Number)
of which shall be deemed an original, this the _____ day of _____, 2020.

City of Alameda Contractor Verification Form
Implementation of City of Alameda Integrated Pest Management Policy

The City of Alameda (City) is mandated to:

- (a) Minimize its reliance on pesticides that threaten water quality, and
- (b) Require the effective use of Integrated Pest Management (IPM) in all municipal operations and on all municipal property.

To ensure compliance with this mandate, all City operations need to verifiably implement the practices and policies described in the City's IPM Policy adopted June 15, 2010. A copy of this IPM Policy is included with this form. The implementation of the IPM Policy is applicable to all municipal contractors that provide landscaping, structural pest control, or other pest management services in support of City operations and/or on municipal property.

The undersigning parties acknowledge that all elements of the City's IPM Policy will be implemented throughout the period of contractual services provided to City operations and on municipal property. Specific actions to document this performance shall include:

- ☐ Pest Management Contractor shall provide to City project manager for pre-approval the Pest Management Considerations Checklist.
- ☐ Pest Management Contractor shall avoid the use of the following pesticides that threaten water quality, human health and the environment:
 - Acute Toxicity Category I chemicals as identified by the Environmental Protection Agency (EPA)
 - Organophosphate pesticides (e.g., those containing Diazinon, chlorpyrifos or malathion)
 - Pyrethroids (bifenthrin, cyfluthrin, beta-cyfluthrin, cypermethrin, deltamethrin, esfenvalerate, lambda-cyhalothrin, permethrin, and tralomethrin), carbamates (e.g., carbaryl), and fipronil
 - Copper-based pesticides unless their use is judicious, other approaches and techniques have been considered and the threat of impact to water quality is prevented.
- ☐ Pest Management Contractor shall provide to the City's project manager an annual Report of all pesticide usage in support of City operations including product name and manufacturer, active ingredient(s), target pest(s), the total amounts used and reasons for any increase in use of any pesticide.
- ☐ If the Contractor's on-site personnel are currently IPM certified through either the EcoWise or GreenPro programs, or through another program, the contractor shall provide written evidence of any certifications to the City's project manager.

**City of Alameda Pest Management Contractor Checklist:
Pest Management Options Considerations**

Contractor will consider the City IPM Policy's hierarchy of options or alternatives listed below, in the following order before recommending the use of or applying any pesticide on City property. Please provide a written explanation in each section below of why the specific pest management option is not appropriate:

(1) No controls (e.g. tolerating the pest infestation, use of resistant plant varieties or allowing normal life cycle of weeds)

Comment: _____

(2) Physical or mechanical controls (e.g. hand labor, mowing, exclusion)

Comment: _____

(3) Cultural controls (e.g. mulching, disking, alternative vegetation), good housekeeping (e.g. cleaning desk area)

Comment: _____

(4) Biological controls (e.g., natural enemies or predators)

Comment: _____

(5) Reduced-risk chemical controls (e.g., soaps or oils)

Comment: _____

(6) Other chemical controls

TECHNICAL REQUIREMENTS

1 MOBILIZATION

1-1 GENERAL

Mobilization shall consist of preparatory work and operations, including, but not limited to, those necessary for the movement of personnel, equipment, supplies, and incidentals to the project site; for the establishment of all offices, buildings, staging areas and other facilities necessary for work on the project; and for all other work and operations which must be performed or costs incurred prior to beginning work on the various contract items on the project site; and for obtaining permits, insurance, and bonds as required for the proper performance and completion of the work. Payment for procuring and maintaining a staging area is included in the Bid Item entitled "Mobilization".

This item includes any de-mobilization and re-mobilization that may be required for completing various stages or work or for the suspension of work.

2 PEDESTRIAN AND TRAFFIC CONTROL PLAN

2-1 GENERAL

Contractor shall provide pedestrian and traffic control within the construction area in accordance with General Section II.Q, “Public Convenience and Safety”, Technical Requirements, and the attached City of Alameda’s Pedestrian and Traffic Control Plan (PTCP) Application Package. The latter is provided as guidance and is meant to inform the Contractor on what the City expects for the pedestrian and traffic control plan. The forms provided with the PTCP Application Package do not need to be filled out and submitted.

The requirements in this section apply to pedestrian traffic, wheelchair access as well as vehicle traffic including bicycles and may be modified or altered if, in the opinion of the Engineer, public traffic will be better served and work expedited. Said modifications or alterations shall not be adopted until approved in writing by the Engineer.

2-2 DESCRIPTION OF WORK

The Contractor shall maintain vehicular and pedestrian access to all areas, both public right-of-way and private throughout the course of the work. The Contractor will be required to submit pedestrian and traffic control plans to specific construction operations.

2-3 MATERIALS

The Contractor will be expected to provide all necessary materials for this work.

The Contractor must use City provided “No Parking” signs. Signs are provided at no cost to the Contractor and will be provided on request to the assigned project inspector.

2-4 CONSTRUCTION METHODS

The requirements in this section may be modified or altered if, in the opinion of the Engineer, public traffic will be better served and work expedited. Modifications or alterations shall not be adopted until approved in writing by the Engineer.

The Contractor shall conduct all operations with the least possible obstruction and inconvenience to the public. The Contractor shall have under construction no greater length or amount of work than can be completed within a workday with due regards to the rights of the public.

No excavation shall remain open longer than is necessary to perform the work as determined by the Engineer.

All excess and unsuitable material resulting from the Contractor’s operations shall be removed as it develops and before the end of each day.

No material or equipment shall be stored where it will interfere with the free and safe passage of the public and at the end of each day’s work and at other times when construction operations are suspended for any reason, the Contractor shall remove all equipment and other obstructions from that portion of the roadway open for public use.

2-4.1 Pedestrian and Traffic Control Plan

Contractor shall submit a pedestrian and traffic control plan showing the location of pertinent temporary traffic control devices in accordance with the most recent version of the “California Manual on Uniform Traffic Control Devices (CA MUTCD),” issued by the California Department of Transportation. No work will be allowed until a pedestrian and traffic control plan has been submitted to the City and approved by the City, and the pedestrian and traffic control plan has been put in place, including properly trained and equipped flagmen at their planned positions.

All pedestrian and traffic control plans shall be designed and implemented by a contractor in possession of a Class C31 – “Construction Zone Traffic Control Contractor” license.

Contractor shall submit pedestrian and traffic control plans at the pre-construction meeting with the City. Revised submittals, if necessary, will be due within 5 working days of return from City.

2-4.2 Lane Closures

Lane closures will only be permitted between the hours of 8:00 AM through 5:00 PM, unless otherwise approved by the Engineer.

Lane closures in schools zones, as indicated in the project plans, will only be permitted as follows:

Mondays and Tuesday	9 am to 2 pm
Wednesday	9 am to 1 pm
Thursday and Friday	9 am to 2 pm

A paved traffic lane, not less than 11 feet wide, shall be open for use by public traffic in each direction of traffic at all times.

Cones, if used, must conform to State Standard Specification Section 12-3.02.

Emergency vehicles shall be permitted to pass through the work area without delay at all times.

Waste collection shall not be obstructed.

2-4.3 Street Closures

Street closures are not necessary for this project and are not permitted, unless otherwise approved by the Engineer.

2-4.4 Site Access

Work shall be accomplished in such a manner as to provide access to all intersecting streets and adjacent properties whenever possible. If access to any property cannot be provided, then adequate nearby parking shall be provided and maintained until direct access can again be restored. If during the course of the work, it is necessary to restrict access to certain driveways for an extended period

of time, the Contractor shall notify the affected business/residents, in writing, at least forty-eight (48) hours in advance and post “BUSINESS IS OPEN” signs for business driveways.

When entering or leaving roadways carrying public traffic, the Contractor’s equipment, whether empty or loaded, shall in all cases yield to public traffic.

Personal vehicles of the Contractor’s employees shall not be parked on the traveled way at any time including any section closed to public traffic and shall follow all laws regarding parking as designated in the California Vehicle Code and the City of Alameda Municipal Code.

2-4.5 Flaggers

Flaggers shall not be used during hours of darkness unless authorized by the City.

Flaggers are a required part of pedestrian and traffic control. The minimum number of flaggers required is one per intersection in all the areas where work is being done or as shown per plan, whichever is greater.

Flaggers must be trained for flagging duties according to the CA MUTCD and CCR Title, 8, Chapter 4, Article 11, Section 1598-1599 and have a certificate showing the training accomplished, date and name of trainer. **Copies of Certificates shall be submitted to the City before beginning work.** The project superintendent shall keep copies of the certificates on-site for all persons charged with flagging duties. Changes to flaggers must be coordinated through the City’s project inspector.

3 TRAFFIC STRIPES, PAVEMENT MARKERS AND MARKINGS

3-1 GENERAL

This work shall be done as shown on the plans and in accordance with Sections 84 of the State Standard Specifications, and Details A20A through A20D, A24A through A24F of the State Standard Plans, as modified by these Technical Requirements and applicable City of Alameda Standard Plans.

The Contractor shall review all existing striping and pavement markings in the field prior to making a bid. Quantities are provided in the bid schedule. Generally, all striping and markings will be replaced in the same locations, and shall be thermoplastic, unless otherwise noted on the plans. All the other existing paint stripes and pavement markings will be replaced with thermoplastic unless otherwise stated or specified herein. The details for any changes to the existing striping and pavement markings, if any, will be provided at the Pre-Construction Meeting. These changes should be minor and will not increase the quantities above the 25% limit allowed elsewhere in these specifications.

3-2 TEMPORARY TRAFFIC STRIPES AND PAVEMENT MARKINGS

“Chip Seal Marker,” or approved equal, shall be used for temporary traffic stripes and shall be installed at 24’ spacing, immediately after obliteration of any existing striping. Offset Chip Seal Markers so they will not interfere with final locations of thermoplastic striping. Completely remove the Chip Seal Marker prior to final thermoplastic striping.

All other traffic control and safety markings such as crosswalks, arrows, lane tapers, etc. shall be marked using paint or reflective tape.

All temporary pavement markers and/or tape shall be removed when permanent striping is placed.

3-3 LAYOUT

All layout and cat tracking shall be performed by and at the expense of the contractor, and shall be approved by the Engineer prior to placement of final striping or markings. Striping and marking shall be done at locations of existing striping and marking, except as modified by the Engineer. Advance spotting and recording of angle points, end points, and other control points, plus color and line detail type, shall be performed by the Contractor. Any uncertainties shall be discussed with Engineer prior to application.

3-4 TRAFFIC STRIPES

Unless otherwise stated, all striping shall be hot liquid thermoplastic. Prior to applying thermoplastic, all areas to receive traffic stripes shall be swept immediately to remove all loose rock and debris.

3-5 CURB PAINTING

Curb painting shall be performed in accordance with Section 78-4.03 of the State Standard Specifications.

Certificates of Compliance – Contractor shall provide certificates of compliance all materials used in accordance with requirements of Section 84 and 85 of the State Standard Specification.

3-6 PAVEMENT MARKERS

All markers shall be placed using hot melt bituminous adhesive exclusively. On roadways separated by a raised median, Type C markers (red-clear) shall be used in lieu of Type G (one way clear). All non-reflective markers shall be the ceramic type.

3-7 HYDRANT MARKERS

Hydrant Markers will be blue in color are of the same basic specification Type AY or Type AW markers. Avery-Dennison model 911-AB or equal may be used. Placement of blue hydrant markers will be per California MUTCD Figure 3B-102 (CA) “Examples of Fire Hydrant Location Pavement Markers.”

3-8 PAVEMENT MARKINGS

Legends, crosswalks, parking “T’s”, and any other paving marking shall be thermoplastic unless otherwise stated.

Note 4 on State Standard Plan A24D shall not apply.

4 REMOVE YELLOW TRAFFIC STRIPE AND PAVEMENT MARKING

4-1 GENERAL

Traffic stripe and pavement marking shall be removed as shown on the project plans.

Attention is directed to General Requirements Section II.U, "Construction Site Controls" of these this project manual.

Waste from removal of yellow thermoplastic and yellow painted traffic stripe and pavement marking contains lead chromate in average concentrations greater than or equal to 350 mg/kg and less than 1000 mg/kg Total Lead. Yellow thermoplastic and yellow paint traffic stripe and pavement marking exist throughout the project sites. Residue produced when yellow thermoplastic and yellow paint are removed may contain heavy metals in concentrations that exceed thresholds established by the California Health and Safety Code and may produce toxic fumes when heated.

The removed yellow thermoplastic and yellow paint shall be disposed of at a Class 1 disposal facility or a Class 2 disposal facility permitted by the Regional Water Quality Control Board in conformance with the requirements of the disposal facility operator within 2 days after accumulating 220 lbs. of residue and dust. The Contractor shall make necessary arrangements with the operator of the disposal facility to test the yellow thermoplastic and yellow paint residue as required by the facility and these special provisions. Testing shall include, at a minimum, (1) Total Lead and Chromium by EPA Method 7000 series and (2) Soluble Lead and Chromium by California Waste Extraction Test. From the first 887 gallons of waste or portion thereof, if less than 887 gallons of waste are produced; a minimum of four randomly selected samples shall be taken and analyzed. From each additional 222 gallons of waste or portion thereof, if less than 222 gallons are produced; a minimum of one additional random sample shall be taken and analyzed.

The Contractor shall submit the name and location of the disposal facility and analytical laboratory along with the testing requirements to the Engineer not less than 5 days prior to the start of removal of yellow thermoplastic and yellow painted traffic stripe and pavement marking. The analytical laboratory shall be certified by the Department of Health Services Environmental Laboratory Accreditation Program. Test results shall be provided to the Engineer for review prior to signing a waste profile as requested by the disposal facility, prior to issuing an EPA identification number and prior to allowing removal of the waste from the site.

The Contractor shall prepare a project specific Lead Compliance Plan to prevent or minimize worker exposure to lead while handling removed yellow thermoplastic and yellow paint residue. Attention is directed to Title 8, California Code of Regulations, Section 1532.1, "Lead," for specific Cal-OSHA requirements when working with lead.

The Lead Compliance Plan shall contain the elements listed in Title 8, California Code of Regulations, Section 1532.1(e)(2)(B). Before submission to the Engineer, the Lead Compliance Plan shall be approved by an Industrial Hygienist certified in Comprehensive Practice by the American Board of Industrial Hygiene. The Plan shall be submitted to the Engineer at least 7 days

prior to beginning removal of yellow thermoplastic and yellow paint.

Prior to removing yellow thermoplastic and yellow painted traffic stripe and pavement marking, personnel who have no prior training shall complete a safety training program provided by the Contractor that meets the requirements of Title 8, California Code of Regulations, Section 1532.1, "Lead," and the Contractor's Lead Compliance Program.

Personal protective equipment, training, and washing facilities required by the Contractor's Lead Compliance Plan shall be supplied the Contractor.

Where grinding or other methods approved by the Engineer are used to remove yellow thermoplastic and yellow painted traffic stripe and pavement marking, the removed residue, including dust, shall be contained and collected immediately. Sweeping equipment shall not be used. Collection shall be by a high efficiency particulate air (HEPA) filter equipped vacuum attachment operated concurrently with the removal operations or other equally effective methods approved by the Engineer. The Contractor shall submit a written work plan for the removal, storage, and disposal of yellow thermoplastic and yellow painted traffic stripe and pavement marking to the Engineer for approval not less than seven days prior to the start of the removal operations. Removal operations shall not be started until the Engineer has approved the work plan.

The removed yellow thermoplastic, and/or yellow paint residue shall be stored and labeled in covered containers. Labels shall conform to the provisions of Title 22, California Code of Regulations, Sections 66262.31 and 66262.32. Labels shall be marked with date when the waste is generated, the words "Hazardous Waste", composition and physical state of the waste (for example, asphalt grindings with thermoplastic or paint), the word "Toxic", the name and address of the Engineer, the Engineer's telephone number, contract number, and Contractor or subcontractor. The containers shall be a type approved by the United States Department of Transportation for the transportation and temporary storage of the removed residue. The containers shall be handled so that no spillage will occur. The containers shall be stored in a secured enclosure until disposal, as approved by the Engineer.

If the yellow thermoplastic and yellow paint residue is transported to a Class 1 disposal facility, a manifest shall be used, and the transporter shall be registered with the California Department of Toxic Substance Control. The Engineer will obtain the United States Environmental Protection Agency Identification Number and sign all manifests as the generator within 2 working days of receiving sample test results and approving the test methods.

The Contractor shall assume that the yellow paint removed is not regulated under the Federal Resource Conservation and Recovery Act (RCRA). Additional disposal costs for removal residue regulated under RCRA, as determined by test results required by the disposal facility, will be paid for as extra work as provided in this project manual.

Nothing in these special provisions shall relieve the Contractor of the Contractor's responsibilities as specified in Section 7-1.04, "Public Safety," of the State Standard Specifications.

5 TRAFFIC SIGNS

5-1 GENERAL

Roadside signs shall be installed at the locations shown on the plans or where directed by the Engineer, and shall conform to the provisions in Section 82, "Signs and Markers," of the State Standard Specifications and these Technical Specifications. Sign dimensions shall be as specified in the CA MUTCD, except as modified on the City Standard Plans.

5-2 MATERIAL

5-2.1 Base Metal

The base metal shall be new sheet aluminum of alloys conforming to State of California specification numbers 6061 T6, 5154 H38. The thickness of the aluminum sheet shall be .080 gauge unless otherwise specified. The material shall be subject to inspection prior to installation.

The fabrication of all signs shall be accomplished in a uniform and workmanlike manner. The sign panels are to be cut as shown on the sign specification sheets. The dimensional tolerance of the panels shall be plus or minus 1/16". Metal panels shall be cut to size and shape and shall be free of buckles, warp, dents, cockles, burrs, and any other defects resulting from fabrication.

All possible fabrication, including shearing, cutting and punching of holes, shall be completed prior to the base metal preparation.

5-2.2 Base Metal Preparation

The aluminum base metal shall be thoroughly cleaned and anodized as per State of California Specification.

5-2.3 Metal Posts

Traffic sign posts shall be 3/4" SQ 12 GA. X 10 perforated telespar.

Post sleeve shall be 2" – 12 GA x 24 anchor welded to 2-1/4" 12 GA. X 12" sleeve with point.

The set screw for post base shall be VCB 194-5-5 5/16 -18 x 5/16" pinned set screw.

Pedestrian barricades shall be furnished and installed in conformance with the details in Caltrans Standard Plan ES-7Q, at the locations shown on the plans, specified in the State Standard Specifications or in these specifications or where designated by the Engineer. Barricade shall be galvanized after fabrication and conform to Section 83-2.08 "Tubular Handrailing," and Section 75, "Miscellaneous Metal" of the State Standard Specifications and these Specifications.

5-2.4 Street Name Signage Mounting Hardware

The post cap and street name sign holder shall be the following materials:
Style # 850 long 5-1/4" blade holder for 1-3/4" square. Post

Signage Mount:

90 degree crosspiece Style # 808

5-2.5 Sign Mount Rivets

Sign mounting rivets shall be VCR 221 3/8" aluminum jumbo head drive rivets.

5-2.6 Reflective Sheeting

All signs shall be constructed of high intensity reflective sheeting. The reflective sheeting shall be Scotchlite brand high intensity grade or equal, for the following signs: Guide; Regulatory (ALL except as noted below); Warning (ALL); Informational (NONE: unless otherwise specified on plans).

The following signs shall be manufactured with engineering grade sheeting only: No Parking type signs (R22 through R32) (37 through R38), and No Ped Xing sign (R49 and R96 series, which will use silver white 2290 Scotchlite or equal).

For engineering grade sheeting, such is permitted for parking and other informational signs, the series 700 grade process pastes shall be used for silk screening.

The surface of the reflective sheeting shall be of a flexible, transparent plastic material and shall be smooth. The backing medium shall be of synthetic sheet resin or other suitable non cellulosic material. The bonding adhesive shall have no staining effect and shall be mildew resistant. The sheeting shall permit cutting and color processing at temperatures of 60 to 100°F and relative humidities of 20 to 80 percent. The sheeting shall be heat resistant and permit force curing of unapplied sheeting at temperatures up to 150 and up to 200°F on applied sheeting. The sheeting surface shall be solvent resistant to gasoline, VM&P naphtha, mineral spirits, turpentine, and methanol.

The reflective sheeting shall be applied to the face of the sign by an approved vacuum applicator using a combination of vacuum and heat, as recommended by the reflective sheeting manufacturer. After aging for 48 hours the adhesive shall produce a durable bond equal to or greater than the strength of the reflective sheeting. No air pockets or bubbles shall exist between the sheeting and the base material.

Repairs to damaged reflective sheeting due to poor workmanship or defective material will not be allowed.

Reflective sheeting screening coats shall be oven cured as recommended by the reflective sheeting manufacturer.

5-2.7 Sign Relocation

Existing signs shown to be relocated shall be removed from existing location and relocate with new sign post and mounting at an approved location. Signs damaged by the Contractor during or prior to relocation shall be replaced by and at the Contractor's expense.

5-3 ASSEMBLY

5-3.1 Splices, Vacuum Applied Sheeting

There shall be no splices in the reflective sheeting on panels with a minor dimension of 48", the splice shall be horizontal.

No finished sign shall have more than one splice and no splice shall fall within 2 inches of the sign edge. When splices do occur, the adjoining reflective sheeting shall be color matched under both incident and reflected light.

5-3.2 Edge Sealing

The edges of each completed reflective sheeting sign face and of all cut out letters, numbers, arrows, symbols and borders shall be sealed in a manner and with a sealing solution as recommended by the manufacturer of the reflective sheeting.

5-3.3 Finish

The finished sign shall be flat within a ratio of 0.04 inches per linear foot when measured across the plane of each panel from opposite corners, or at any location on the panel. All finished signs shall have smooth flat surfaces without defects or objectionable marks of any kind on either the front or back faces.

5-4 LEGEND

All letters and designs shall be clearly cut and sharply defined. The message shall be of the following type:

For regulatory signs using high intensity sheeting, the legend may have die cut letters, numbers, and symbols using D or E series or Series 800 (3M) process colors.

For regulatory signs that are allowed to use engineering grade sheeting, the legends shall be cut out letters, numbers, and symbols using engineering grade sheeting, 605 Series Scotchcal film or Series 700 (3M) process colors. The G7 sign used at or advance of named crossroads shall have the following letter sizes: 8" upper case, 6" lower case, series E.

Length of blanks: 5 feet for 8 letters, numbers and spaces, 6 feet for 10 letters, numbers and spaces, 7 feet for 13 letters, numbers and spaces, 8 feet for 15 letters, numbers and spaces. The legend will have die cut letters, numbers and symbols using series E that are Scotchlite, high intensity grade or equal. The guide and informational signs allowed to be manufactured with engineering grade sheeting may have die cut letters, numbers, and symbols or screened letter, numbers and symbols using series 700 process paste.

5-5 MANUFACTURER'S IDENTIFICATION

The year of manufacture and the manufacturer's initial shall be permanently marked or etched on the back of the signs. All identification letters and numerals shall be so placed as not to fall behind any post or frame member.

5-6 SIGN POSTS AND MOUNTING

Except as shown on the plans, all traffic signs shall be mounted on its own post at height shown on the plans and in conformance with CA MUTCD.

All posts shall be set in concrete a minimum of two feet below existing grade level. Minimum diameter of concrete footing for posts installed outside of sidewalk shall be 8 inches.

Top of post sleeves shall be installed 2" above finished grade.

Signs to be located in existing sidewalk area may be placed by drilling a hole in the sidewalk one inch (1") larger than the diameter of the post sleeve, a minimum of two feet (2") deep; fill the hole with mortar and place the pole in the hole in a plumb position.

Fasten traffic signs with at least two 3/8" aluminum jumbo head drive rivets.

Sign panels greater than 34" in width shall be installed with a back brace mounted with hardware as noted above.

5-7 INSPECTION

All materials and finished signs are subject to inspection by the City. The finished signs shall be clean and free from all router chatter marks, burrs, sharp edges, loose rivets, delaminated reflective sheeting and aluminum marks. Signs with any defects or damage that would affect their appearance or serviceability will not be acceptable. No repairs shall be made to the face sheet without the approval of the City Inspector. All signs not conforming in all respects to the requirements of these specifications, or those damaged during installation will be rejected.

6 METHYL METHACRYLATE BIKE LANE TREATMENT

6-1 GENERAL

Methyl Methacrylate Bike Lane Treatment (the MMA Bike Lane System) is a specialized system of bike lane treatment material that combines Methyl Methacrylate resins with hardwearing aggregate and pigments to deliver a durable, highly visible and color stable, lane delineation treatment that meets the non-slip requirements needed for cyclists.

MMA Bike Lane System shall be used to delineate bike lanes and increase bicycle lane presence along the length of a bike lane or cycle track.

6-2 MATERIAL

Materials used to create MMA Bike Lane System shall consist of the MMA system resin, the MMA system Aggregate and catalyst. MMA to be CycleGrip MMAX by Ennis-Flint or approved equal.

MMA Bike Lane System resin.

MMA Bike Lane System resin shall have the following properties:

Density	12.85 +/- .15	Lbs/Gal
Tensile	>2000 psi	ASTM D638
Elongation	>70%	ASTM D638
Flash Point	>10°C	ASTM D1310

MMA Bike Lane System resin shall be pigmented to meet the following color coordinates:

Daytime chromaticity:

1		2		3		4	
X	y	x	y	x	y	x	y
0.230	0.754	0.266	0.500	0.367	0.500	0.444	0.555

The daytime luminance factor (Y) shall be at least 20, but no more than 35.

Nighttime chromaticity:

1		2		3		4	
X	y	x	y	x	y	x	y
0.230	0.754	0.336	0.540	0.450	0.500	0.479	0.520

MMA Bike Lane System aggregate shall be provided by the manufacturer and will have a hardness of 9 on the Mohs scale. Aggregate shall be a neutral, light color that will not affect the color of the finished product, and will have a mesh sizing of 24 Grit.

Catalyst shall come in a powder form and be supplied in bulk at the maximum usage rate of 0.51 +/- 0.2 lbs (.23 +/- .09 kg) per pail of resin.

Ambient and surface temperatures for installation should be between 40-100°F, and should be 5°F above the dew point temperature. There should also be less than 75% relative humidity when installing.

6-2.1 Performance Properties

Density	18.5 +/- 0.5	Lbs / Gallon
Solids	>99%	D2205
Build	Thickness	90 +/-10 Mils
VOC	<100	Grams/Liter
Pot Life	~15min	AASHTO T237
Skid	>60	ASTM E303
Hardness	50-60	ASTM D2240
Water Absorption	<0.25%	ASTM D570

6-2.2 Packaging

MMA Bike Lane System resin must be supplied in compliant metal pails that have a UN1A2Y1.9/100 rating.

MMA Bike Lane System aggregate must be supplied in 25.5 +/- 0.5 lbs. (11.7 +/- .23 kg) pre-packaged bags or pails.

6-3 APPLICATION EQUIPMENT

The following items are needed during the different stages of application

Surface prep & layout	Mixing	Installation	Clean up
Stiff broom	High speed / torque drill	Long handled squeegees	Solvent resistant gloves
Blower / compressed air	Mixing paddles	Spare rubber squeegee blades	Safety glasses
Measuring tape	Measuring cup	Straight hand trowels	Acetone
Chalk line	Small tarp	Long handled roller cages	Large cleaning tub
Marking crayons	Screw driver/bucket opener	Rollers - med. nap (5 per 1000 SF)	Solvent resistant brushes
Duct tape	Utility knife		Cloth rags
Roofing paper	Misc tools		Trash bags

6-4 APPLICATION

Pre-conditions. Aged surfaces containing reflective cracking should be repaired.

Surface preparation. Clean the intended application area thoroughly. All loose particles, dirt, sand dust, etc. must be removed. Broom and use a power blower or compressed air. The surface must be clean, dry and free of all dust, oil, debris and any other material that might interfere with the bond between MMA Bike Lane System and surface to be treated.

Chemical contaminants: Clean areas containing chemical contaminants such as vehicle fluids, using a degreasing solution, and ensure removal of contaminants and degreasing solution well in advance of the application.

6-4.1 Obstacles

Pavement markings that are to be left in place, utilities, drainage structures, curbs and any other structure within or adjacent to the treatment location shall be masked to protect from application. Existing pavement markings conflicting with the surface treatment should be removed by grinding or water blasting. Extra care should be taken to thoroughly remove the dust and debris caused from grinding.

6-4.2 Surface Prep

Clean the intended application area thoroughly. All loose particles, dirt, sand dust, etc. must be removed. Concrete surfaces should be wire brushed, at minimum. Sweep completely. Use a power blower or compressed air. Clean areas containing chemical contaminants such as vehicle fluids, using a degreasing solution. Proper removal of contaminants and degreasing solution are necessary well in advance of the application.

6-4.3 Masking

Using duct tape and roofing paper, mask off perimeter of area to be colored, as well as any object not to be colored such as manhole covers, drains and existing markings.

6-4.4 Mixing

Add the supplied 25.7 lbs of CycleGrip® MMAX aggregate into the 2 gallons CycleGrip® MMAX resin and mix with clean mixing paddle, using a high speed, high torque drill. Add the recommended amount of powder catalyst, based on ambient and pavement temperature (Table 1), and mix thoroughly.

After adding the catalyst, CycleGrip® MMAX will start curing and must be applied to the pavement immediately. There will be 4 to 10 minute working time, which is temperature dependent.

Material will mix to approximately 2.79 gallons (10.55 liters), weigh 52 lbs and cover 45-50 sqft @ 90 mils.

Caution: Clean the mixing paddle between uses or understand that material will immediately initiate curing if previously exposed to catalyzed material (and not cleaned).

Table 1: Recommended catalyst by temperature range:

< 70°F / 18°C	lbs (kg)	.51 (.23)
	fl oz (liters)	12 (.365)
70-90°F / 18-32°C	lbs (kg)	0.26 (.12)
	fl oz (liters)	6 (.185)
> 90°F / 32°C	lbs (kg)	0.13 (.06)
	fl oz (liters)	3 (.09)

6-5 INSTALLATION

Immediately, pour mixed material on to pavement to be treated and use a squeegee to evenly distribute at a coverage rate of 16-18 sq. ft. per gallon, or 45-50 sq. ft. per pail. Pre-measuring / pre-marking can assist to ensure proper coverage. Use trowel in small, tight areas where squeegee cannot effectively be used. After rough distribution with squeegee, back roll material (one direction only) to remove working lines created with squeegee and create a consistent, anti-slip texture. Roller will last longer during continuous usage when it remains wetted with new matches of MMA resin, but will need to be replaced when it starts ‘pulling’ material or creating differences in texture. Stopping and starting will decrease the useful life of the roller.

As material gels, but before it cures, remove masking.

6-5.1 Clean Up

Clean all tooling in acetone before material is cured. Clean in well ventilated areas to reduce fume buildup and worker exposure. Do not come into direct contact with solvents - use proper personal protective equipment. Acetone is extremely flammable; take proper handling measures to reduce static discharge and combustion. Dispose of all contaminated materials in accordance with all applicable federal, state and local laws and regulations.

6-6 OPENING TO TRAFFIC

MMA Bike Lane System must be 100% cured, which will be a hardened solid state, before traffic is permitted. Curing typically takes 30-60 minutes and is based on temperature and amount of catalyst added.
