I. INTRODUCTION

The City of Alameda ("City") is requesting professional proposals from qualified organizations to assist the City with on-call services for Mechanical Engineering. The City intends to issue up to four each, five-year term contracts for these services, to be used as the need arises. Services will be used for a variety of small and medium projects.

A. Background.

The City of Alameda is a charter city with a population of over 75,000 people, located in the San Francisco Bay Area. The City is mature and almost completely built out. Most of the maintenance and capital improvement program (CIP) consists of reconstruction of buildings, streets, parks, sewer, storm drainage, and shoreline improvements. The City has limited internal resources for engineering services. In the past, the City has contracted with a variety of consultants to provide on-call services, and has renewed each contracts for several years. This Request for Proposal (RFP) will provide new opportunities for consultants to work with the City.

B. Purpose of the Request.

The City desires to obtain the services of one or more outside organizations to help the City with all aspects of maintenance and CIP projects, including preliminary investigation, permitting, design, and construction management.

II. SCOPE OF SERVICES

Attached as Exhibit A is the Scope of Services listing major work tasks that may be requested. The City's usage of the consultants' services are on an as-needed basis so that if the demand is not there, then the services will not be requested. For each on-call service request, the consultant and the City will agree upon the specific scope of work and cost for that project. The City has the right to retain other consulting firms in its sole discretion when the City believes there will be an economic or other significant advantage for doing so. Services for each contract will be provided on a negotiated fee basis, per work order. No minimum amount of work is guaranteed under these agreements. Compensation will be based on time and materials with a not-to-exceed limit agreed upon by both Consultant and City before work begins.

III. PROPOSAL FORMAT

The proposal format is up to the proposer, but proposals shall include the following minimum information, in an easy to find format:

A. Description of Organization, Management and Team Members.

Provide a description of the team/consultant organization, and a work plan that identifies the personnel to be assigned to each task. The organization description should clearly identify who will be the project manager for this term contract, and the day to day contact person for the job. Include resumes of key personnel and indicate which branch office they work out of. The City expects to work with the same project manager during the entire term of the contract, but expects that the team will be tailored to the size of each individual project.

B. Organization Qualifications.

Provide an outline of the organization qualifications indicating relevant background experience and capabilities for this work. Give examples of work accomplished that is similar in size and content to the Scope of Services. If available, give examples of other on-call services contracts. If the proposing firm is likely to be using a subconsultant for the type of work discussed in the Scope of Services, provide information on the subconsultant firm and personnel likely to be used.

C. References, Related Experience and Examples of Work.

Provide client references with phone numbers for relevant work. Specify the client, location, consultant firm members and participating individuals and role on team (principal, project director, etc.), type of work, implementation results or status, examples of work, and other relevant information as needed. Show small sized, medium sized and on-call service contracts, if available.

IV. SELECTION PROCESS

A. Qualifications.

All proposals received by the due date will be evaluated by the City. Only information which is received in response to the RFP and input from references will be evaluated. The City will judge the responses of each proposing firm in several critical areas.

B. Selection Criteria.

The City will select the most qualified proposal(s) based on the following factors. Responses to the RFP should address the qualities and indicators that are listed below:

1. Ability of the Firm to Carry Out and Manage the Proposed Project.

An assessment of the past experience of the organization in general. Qualities and indicators that will receive consideration include the number and types of projects the organization or its employees have completed; the variety and creativity of projects completed and a demonstration of the organization's ability to be responsive to the City's need for an on-call consultant, the general level of experience in the areas of supervision, observing and monitoring projects; the organization's ability to realize timetables and quality control objectives; and the demonstrated general ability to bring about a successful completion of the projects under the proposer's direction.

2. Capabilities of the Consultant Team Members.

Assessment of the capabilities of the individuals that will be engaged in the project. Qualities and indicators that will receive consideration include what professionals will be doing/working on each task; the various professional, technical, and educational achievements and registrations of each organization and individuals involved; the applicable experience of the proposed assigned staff, and the specific experience gained on similar projects.

3. Proximity to the Project Involved for the Proposer and/or Team.

The application of this criteria shall include an assessment of the geographic proximity to the project; the location of the office from which the proposed project will be administered; the perceived response time and general availability of the proposer's management to be on site; the perceived effect that project management location will have on price and the ability of the project to be expedited on a timely basis; and the availability of special travel or communication plans which would effectively mitigate difficulties associated with location. *Firms located in the City of Alameda, or who have a team member who lives in Alameda, may be given local preference.*

4. Willingness to Comply with the Proposed Agreement Terms.

A sample service provider agreement is attached as Exhibit B. Proposals will be rated based on the exceptions taken to the proposed contract.

5. Billing Rate

Cost, while not determinative, may be considered in the selection process. The selected firm will be expected to maintain the proposed billing rates throughout the first fiscal year of the contract, from July 1, 2020 through June 30, 2021. For Fiscal Years 2021 to 2025 the City will consider renegotiation of the billing rates prior to the start of each fiscal year.

C. Proposed Selection and Project Schedule.

Electronic Proposal Due Date:	May 12, 2020 by 2 p.m.
Projected City Council Award of Agreement:	July 7, 2020
Projected Agreement Start Date:	July 20, 2020

D. Award of Contract.

It is anticipated that any award of an agreement for services will be made by the City Council as early as the July 7, 2020 meeting. Notice to proceed will be on or after July 20, 2020.

V. PROPOSAL DUE DATE AND DELIVERY

The Proposal shall be submitted in electronic format (PDF) to the City of Alameda's Public Works general mailbox at **pw@alamedaca.gov by 2 p.m. on May 12, 2020**. It is the Proposer's responsibility to clearly identify the RFP name in the email subject line "RFP for ON-CALL MECHANICAL ENGINEERING SERVICES". It is also the Proposer's responsibility to acknowledge and respond to the automated response message from the City of Alameda so that the email is released from the City's spam account. The City shall not be held liable for negligence on the Proposer's part to confirm acknowledgement or failure to respond to the automated message. The time and date on the email, as received in the City's general mailbox, will serve as the official received date and time stamp. Please allow sufficient time to submit and acknowledge the submittal of your proposal. RFP's with a time stamp after 2 p.m. will not be accepted.

VI. CONDITIONS OF REQUEST

A. General Conditions.

The City reserves the right to cancel or reject all or a portion or portions of the request for proposal without notice. Further, the City makes no representations that any agreement will be awarded to any organization submitting a proposal. The City reserves the right to reject any and all proposals submitted in response to this request or any addenda thereto.

The City also reserves the right to reject any subconsultant or individual working on a consultant team and to replace the subconsultant or individual with a mutually acceptable replacement.

Any changes to the proposal requirements will be made by written addendum.

B. Liability of Costs and Responsibility.

The City shall not be liable for any costs incurred in response to this request for proposals. All costs shall be borne by the person or organization responding to the request. The person or organization responding to the request shall hold the City harmless from any and all liability, claim or expense whatsoever incurred by or on behalf of that person or organization. All submitted material becomes the property of the City of Alameda.

The selected lead consultant will be required to assume responsibility for all services offered in the proposal whether or not they possess them within their organization. The selected lead consultant will be the sole point of contact with regard to contractual matters, including payment of any and all charges resulting from the contract.

C. Validity.

The proposer agrees to be bound by its proposal for a period of ninety (90) days commencing May 12, 2020, during which time the City may request clarification or correction of the proposal for the purpose of evaluation. Amendments or clarifications shall not affect the remainder of the proposal, but only that portion so amended or clarified.

D. Standard Service Provider Agreement.

A sample service provider agreement has been provided as Exhibit B for the proposer's review and comment. If a proposer wishes to take exception to any of the terms and conditions contained in the consultant agreement, these should be identified specifically; otherwise it will be assumed that the proposer is willing to enter into the agreement as it is written. Failure to identify contractual issues of dispute can later be the basis for the City disqualifying a proposer. Any exceptions to terms, conditions, or other requirements must be clearly stated. Otherwise, the City will consider that all items offered are in strict compliance with the RFP, and the successful proposer will be responsible for compliance. The City will consider such exceptions as part of the evaluation process which may constitute grounds for rejection of the proposal. The consultant agreement will not be executed by the City without first being signed by the proposer.

E. Permits and Licenses.

Proposer, and all of proposer's sub-consultants, at its and/or their sole expense, shall obtain and maintain during the term of any agreement, all appropriate permits, certificates and licenses including, but not limited to, a City of Alameda Business License which will be required in connection with the performance of services hereunder.

F. Oral and Written Explanations.

The City will not be bound by oral explanations or instructions given at any time during the review process or after the award. Oral explanations given during the review process and after award become binding when confirmed in writing by an authorized City official. Written responses to question(s) asked by one proposer will be provided to all proposers who received Requests for Proposals.

G. Proposer's Representative.

The person signing the proposal must be a legal representative of the firm authorized to bind the firm to an agreement in the event of the award.

H. Deliverables.

Deliverables depend upon the task assigned. In general, three (3) copies of administrative draft reports are required upon completion of each major part of the project. Following approval by the staff, three (3) copies of each final report are required.

One unbound copy of each final document and an electronic file containing all final documents and all information are to be provided. The consultant will develop a system to assemble, organize, store and utilize data in an electronic format. At the outset of the agreement, the consultant will submit a description of the software to be used in preparation of the reports and graphics.
